- "How's your first week going, {{first_name}}?"
 - "Quick check-in from SiyaBusa"
 - "{{first_name}}, any questions so far?"
-

Email Body

Hi {{first_name}},

It's been a week since you started with SiyaBusa. How's it going?

I wanted to personally check in and make sure you have everything you need.

😞 COMMON QUESTIONS AT THIS STAGE

"How do I reset my password?"

→ Profile icon (top right) → Settings → Change Password

"Where do I find historical data?"

→ Use date filters on any list view, or check Reports

"Can I undo a mistake?"

→ Most records have an audit trail - contact support for reversals

"How do I get help?"

→ See below!

Implementation Guide

Email Platform Setup

Recommended Platforms:

- Mailchimp (good for starters)

- SendGrid (developer-friendly)
- Customer.io (advanced automation)
- HubSpot (full CRM integration)

Automation Triggers

```
// Pseudo-code for automation triggers

// When new user is created
onUserCreated(user) {
  // Start onboarding sequence
  emailSequence.start({
    userId: user.id,
    sequence: 'onboarding',
    variables: {
      first_name: user.firstName,
      user_email: user.email,
      company_url: user.tenant.url,
      company_name: user.tenant.name,
      primary_module: user.primaryModule,
      temp_password: generateTempPassword()
    }
  });
}

// Daily scheduler for sequence emails
dailyScheduler() {
  // Email 2: Day 1
  sendScheduledEmails('onboarding_day_1');

  // Email 3: Day 3
  sendScheduledEmails('onboarding_day_3');

  // Continue for all emails...
}

// Track engagement
onEmailOpened(email, user) {
  tagUser(user, 'engaged');
  trackEvent('email_opened', { email: email.id });
}

onLinkClicked(link, email, user) {
  tagUser(user, link.topic);
  trackEvent('link_clicked', { email: email.id, link: link.id });
}
```

API Integration

```
// SiyaBusa Backend Integration

// POST /api/v2/email/trigger
{
  "event": "user_created",
  "user_id": "usr_123",
  "data": {
    "first_name": "Thabo",
    "email": "thabo@company.co.za",
    "tenant_id": "tnt_456",
    "primary_module": "financial"
  }
}

// Webhook for email events
// POST /api/v2/webhooks/email
{
  "event": "email_opened",
  "email_id": "onboarding_welcome",
  "user_id": "usr_123",
  "timestamp": "2026-01-03T10:30:00Z"
}
```

Metrics to Track

Metric	Target	How to Measure
Open rate	>40%	Email platform
Click rate	>15%	Email platform
Completion rate	>70%	Finish all 8 emails
Login after email	>80%	App analytics
Certification rate	>30%	LMS tracking
Support tickets	<2 per user	Help desk

A/B Testing Plan

Test 1: Subject Lines

- Test welcome email subject lines
- Run for 2 weeks, 50/50 split
- Measure open rate

Test 2: Send Times

- Test 8am vs 10am vs 2pm
- Run for 1 month
- Measure open rate + click rate

Test 3: Email Length

- Test short vs detailed versions
 - Run for 1 month
 - Measure click rate + completion rate
