1. EDUCATIONAL POSTS

POST: Month-End Tips

5 ways to cut your month-end close time in half:

- 1** Automate bank reconciliation
Don't manually match transactions. Let your ERP do it.
- 2** Set up recurring journal entries
Same entries every month? Automate them.
- 3** Close sub-ledgers first
AP, AR, then GL. Every time.
- 4** Pre-populated checklists
Never miss a step.
- 5** Real-time dashboards
Stop waiting for reports.

Our clients went from 5-day closes to same-day.

What's your biggest month-end bottleneck?

#Finance #MonthEnd #ERP #SouthAfrica #CFO

POST: SARS Compliance

SARS sent you a letter. Now what?

Here's your 5-step survival guide:

- Step 1: Don't panic (easier said than done)
- Step 2: Note the reference number
- Step 3: Calculate your response deadline
- Step 4: Gather required documents
- Step 5: Submit before the deadline

Or... use SARS Sentinel and let AI handle steps 2-4 automatically.

We built it because we were tired of seeing businesses get penalties for missed deadlines

Have you ever missed a SARS deadline? What happened?

#SARS #TaxCompliance #SouthAfrica #SmallBusiness

POST: Audit Preparation

Your auditors are coming in 30 days.

Are you:

- A) Panicking and scrambling for documents
- B) Confidently reviewing your Audit Shield readiness score

The difference between A and B?

- Pre-built compliance checklists
- Evidence already linked to requirements
- Permanent audit file maintained all year
- Secure auditor portal ready to go

Audit prep shouldn't be a crisis.

What's your audit prep like?

2. PRODUCT FEATURE POSTS

POST: Feature Spotlight - SARS Sentinel

Introducing SARS Sentinel

The only ERP module built specifically for SARS correspondence management.

What it does:

Auto-classifies any SARS letter (IT34, VAT201, Customs, etc.)

 Calculates response deadlines automatically

Creates response workflows with templates

Sends reminders before deadlines

Tracks everything in one dashboard

Why we built it:

Every South African business deals with SARS. None of our competitors had a solution.

So we built one.

No other ERP has this.

See it in action → [\[Link to demo\]](#)

#SARS #ERP #SouthAfrica #Innovation

POST: Feature Spotlight - All-in-One

"But we need separate systems for..."

No. You don't.

SiyaBusa includes:

Financial Management

HR & Payroll

Inventory Management

Sales & CRM

Purchasing

Manufacturing

Project Management

Industry Verticals

 AI Assistants

Business Intelligence

All integrated. One login. One price.

Stop paying for 5 systems that don't talk to each other.

What systems are you currently juggling?

#ERP #Integration #BusinessSoftware

POST: Pricing Transparency

Let's talk ERP pricing.

SAP Business One: R150,000+/month

Sage X3: R40,000+/month

NetSuite: R50,000+/month

SiyaBusa: From R15,500/month

Same enterprise features.

40-50% lower cost.

No hidden fees.

How?

Cloud-native (no expensive infrastructure)

SA-focused (no global bloat)

Modern architecture (efficient development)

No module fees (everything included)

We believe world-class software shouldn't cost a fortune.

DM me for a custom quote.

#ERP #Pricing #Value #SouthAfrica

3. SOCIAL PROOF POSTS

POST: Results/Numbers

Q4 Results from our clients:

- 73% reduction in month-end close time
- R2.1M saved in audit fees (collective)
- Zero missed SARS deadlines
- 94% user satisfaction score

Behind every number is a finance team that's sleeping better at night.

That's why we do this.

Ready to become a statistic? (The good kind)

#Results #ROI #ERP #Finance

POST: Testimonial

"We went from 5-day month-end closes to same-day."

That's what [Client Name], CFO at [Company], told us last week.

Before SiyaBusa:

Multiple spreadsheets
Manual reconciliations
Constant SARS stress
Audit prep nightmares

After SiyaBusa:

Single source of truth
Auto-reconciliation
SARS Sentinel handling compliance
Audit-ready year-round

The best part? They're saving R15,000/month compared to their old setup.

Thinking about making the switch?

#CustomerSuccess #ERP #Finance

POST: Case Study Teaser

Manufacturing company. 50 employees. Johannesburg.

Their challenge:

- Production tracking was manual
- Inventory never matched
- Cost allocation was guesswork
- Month-end took 2 weeks

Our solution:

- Full SiyaBusa implementation (4 weeks)
- Manufacturing + Inventory + Financial modules
- Custom dashboards for production floor

The result:

Month-end: 2 weeks → 2 days

Inventory accuracy: 78% → 99.2%

Annual savings: R180,000

Full case study in comments

4. CULTURE/BEHIND THE SCENES

POST: Team Introduction

Meet the team behind SiyaBusa

We're a group of finance professionals, software engineers, and compliance experts who go

So we built something better.

Our philosophy:

Built for South Africa, by South Africans

Enterprise features, startup pricing

🤖 AI-first, but human-centered

Compliance shouldn't be scary

We're hiring! Check out our open roles in the comments.

#TeamSiyaBusa #Startup #SouthAfrica #Tech

POST: Behind the Feature

How SARS Sentinel was born

True story:

One of our early clients missed a SARS deadline.

R50,000 penalty.

For a letter that was sitting in someone's inbox.

We asked: "Why doesn't your ERP track this?"

Answer: "It doesn't. No ERP does."

So we built SARS Sentinel.

Now it:

- Auto-classifies every SARS letter
- Tracks all deadlines
- Sends alerts before they're due
- Creates response workflows

Zero missed deadlines for our clients since launch.

That's why we build what we build.

Twitter/X Thread Templates

Thread 1: ERP Buying Guide

📖 How to choose an ERP in South Africa (2026 edition)

A thread for CFOs, Finance Managers, and Business Owners:

1/12

First, understand what you actually need.

Do you need:

- ☐ Just accounting? → Xero, QuickBooks
- ☐ Accounting + inventory? → Sage 50
- ☐ Full ERP (finance, HR, ops)? → Keep reading

2/12

The big players and what they actually cost:

SAP Business One: R150K+/mo

Oracle NetSuite: R50K+/mo

Sage X3: R40K+/mo

Microsoft Dynamics: R60K+/mo

For full implementation with 20+ users.

3/12

What they don't tell you:

- Module fees (extra for manufacturing, HR, etc.)
- Implementation costs (often 2-3x annual license)
- Customization costs
- Integration costs
- Per-transaction fees

Always ask for TOTAL cost.

4/12

- #SmallBusiness
- #Manufacturing
- #DigitalTransformation
- #CloudERP
- #BusinessSoftware

Topic-Specific

- #SARS #TaxCompliance (for tax posts)
- #Audit #Compliance (for audit posts)
- #HR #Payroll (for HR posts)
- #Inventory #WMS (for inventory posts)

Trending (Use When Relevant)

- #BudgetSpeech (during budget speech)
- #TaxSeason (Feb-Nov)
- #YearEnd (Dec-Feb)

Instagram Captions

Post 1: Product Screenshot

Month-end used to mean all-nighters.

Now? Coffee is optional.

Auto-reconciliation. Smart reports. One-click close.

This is what financial peace looks like.

#SiyaBusaERP #FinanceLife #MonthEnd #CFOLife #WorkSmarter

Post 2: Team Photo

The humans behind the software.

Building something special for South African businesses.

We're hiring! Link in bio.

#TeamSiyaBusa #TechStartup #JohannesburgTech #StartupLife

Post 3: Quote Graphic

"The best ERP is the one your team actually uses."

Pretty interfaces matter.

Intuitive workflows matter.

Mobile access matters.

We built SiyaBusa for real humans, not robots. 🤖
