SiyaBusa ERP - Compliance Module Training

COMPLIANCE MODULE TRAINING

Compliance training for SARS Sentinel (VAT, PAYE, EMP201/EMP501) and Audit Shield (audit trails, compliance controls, and reporting).

Complete Training Guide for Compliance & Finance Teams

Training Overview

Duration: 3-4 hours

Prerequisites: Financial Module Training recommended

Certification: Compliance Specialist

Assessment: 30 questions, 85% to pass

Part A: SARS Sentinel Module

Module 1: Understanding SARS Sentinel (30 minutes)

Learning Objectives

- Understand SARS Sentinel capabilities
 - Navigate the compliance dashboard
 - Configure tax settings
 - Monitor compliance health
-

1.1 What is SARS Sentinel?

SARS Sentinel is SiyaBusa's built-in compliance engine that:

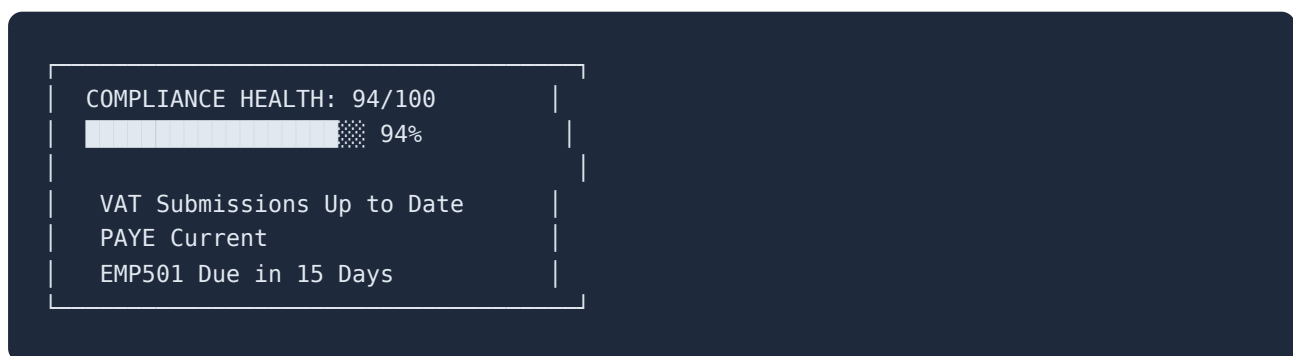

Feature	Description
Tax Automation	Auto-calculates VAT, PAYE, UIF, SDL
eFiling Integration	Direct submission to SARS
Alert System	Deadline reminders and warnings
Audit Trail	Complete submission history
Error Detection	Pre-submission validation

1.2 Compliance Dashboard

Accessing the Dashboard:

1. Navigate to **Compliance** → **SARS Sentinel**
2. Dashboard displays:

Compliance Health Score:

Dashboard Widgets:

- Upcoming Deadlines
- Recent Submissions
- Outstanding Returns
- Risk Alerts

1.3 Tax Configuration

Setting Up Tax Rates:

1. Go to **Compliance** → **Setup** → **Tax Rates**
2. Verify current rates:

Tax Type	Rate	Effective Date
VAT	15%	01 April 2018
PAYE	Sliding scale	Per tax year
UIF	1% (employee + employer)	Current
SDL	1%	Current

Company Tax Registration:

1. Go to **Settings** → **Company**
2. Enter:
 - VAT Registration Number
 - SARS Employer Reference (PAYE)
 - UIF Reference Number
 - Company Income Tax Number

1.4 Practice Exercise

Exercise 1: Dashboard Review

1. Navigate to SARS Sentinel dashboard
2. Review current compliance health score
3. Identify any upcoming deadlines
4. Check for outstanding returns

Module 2: VAT Management (45 minutes)

Learning Objectives

- Process VAT input and output
- Generate VAT reports
- Complete VAT201 returns
- Submit to SARS eFiling

2.1 VAT Overview

VAT Categories:

Category	Description	Rate
Standard	Most goods/services	15%
Zero-Rated	Exports, basic food	0%
Exempt	Financial services	N/A

2.2 VAT Codes in SiyaBusa

Standard Codes:

Code	Description	Rate	Account
S	Standard rate	15%	VAT Output
Z	Zero-rated	0%	N/A
E	Exempt	N/A	N/A
I	Input (purchases)	15%	VAT Input
IP	Import (customs VAT)	15%	VAT Input

2.3 VAT Report

Running VAT Report:

1. Go to **Compliance** → **VAT** → **VAT Report**
2. Select period (monthly/bi-monthly)
3. Click **Generate**

Report Shows:

Line	Description	Amount
Output VAT (Sales)		
1	Standard rate supplies	R1,000,000
1A	VAT on Line 1	R150,000
2	Zero-rated supplies	R200,000
Input VAT (Purchases)		
14	Input tax on purchases	R120,000
15	Adjustments	R0
Balance		
21	VAT Payable	R30,000

2.4 Preparing VAT201 Return

Step-by-Step:

1. Go to **Compliance** → **VAT** → **VAT201**
2. Select tax period
3. System auto-populates from transactions
4. Review each line:
 - Click line to see supporting transactions
 - Verify calculations
 - Check for anomalies
5. Click **Validate**
 - Green : Ready to submit
 - Red : Errors to fix

2.5 Submitting to SARS

eFiling Integration:

1. Complete VAT201 preparation
2. Click **Submit to SARS**
3. Enter eFiling credentials (first time only):

- Username
- Password
- Two-factor code

4. Confirm submission

5. System returns:

- Submission receipt
- Reference number
- Status confirmation

Post-Submission:

- Receipt saved in system
- Dashboard updated
- Audit trail recorded

2.6 Practice Exercise

Exercise 2: VAT Return

1. Generate VAT report for last period
 2. Review transactions by VAT category
 3. Prepare VAT201 return
 4. Validate for errors
 5. Review submission checklist (don't submit)
-

Module 3: PAYE & Employee Taxes (45 minutes)

Learning Objectives

- Calculate PAYE correctly
 - Process EMP201 monthly submissions
 - Prepare bi-annual EMP501
 - Generate IRP5 certificates
-

3.1 PAYE Calculation

How SARS Sentinel Calculates:

Component	Calculation
Gross Income	Total earnings
- Deductions	Pension, medical aid
= Taxable Income	Subject to tax
× Tax Rate	Per SARS tables
- Rebates	Primary, secondary, tertiary
= PAYE	Amount to withhold

Auto-Calculation:

- System uses latest SARS tax tables
- Updates annually when tables change
- Handles mid-year rate changes

3.2 EMP201 Monthly Return

What it Reports:

- Total PAYE deducted
- UIF (employee + employer)
- SDL contributions
- Total liability

Preparing EMP201:

1. Go to **Compliance** → **PAYE** → **EMP201**
2. Select month
3. Review summary:

Tax Type	Amount
PAYE	R125,000
UIF (EE)	R5,000
UIF (ER)	R5,000
SDL	R10,000
Total	R145,000

4. Click **Validate**

5. Click **Submit to SARS**

Deadline: 7th of following month

3.3 EMP501 Reconciliation

Purpose:

- Reconcile full tax year
- Declare all employees
- Issue IRP5 certificates

When:

- Interim: August (6-month)
- Annual: May (full year)

Preparation:

1. Go to **Compliance** → **PAYE** → **EMP501**
2. Select reconciliation period
3. System generates:
 - Employee list
 - Total remuneration per employee
 - Tax deducted per employee
 - UIF/SDL totals
4. Review each employee:

- Verify ID numbers
- Check income codes
- Validate tax calculations

5. Click **Generate IRP5s**

6. Review IRP5 certificates

7. Submit to SARS

3.4 IRP5 Certificates

What's Included:

- Employee details (ID, tax number)
- Income codes (3601, 3605, etc.)
- Deductions (4001, 4002, etc.)
- Tax withheld
- Employer details

Distributing IRP5s:

1. Go to **HR** → **Payslips** → **IRP5s**
2. Select employees
3. Choose: Email / Download / Print
4. Send to employees

3.5 Practice Exercise

Exercise 3: PAYE Processing

1. Review EMP201 for current month
2. Check employee tax calculations
3. Prepare (don't submit) the EMP201
4. Preview an IRP5 certificate

Part B: Audit Shield Module

Module 4: Understanding Audit Shield (30 minutes)

Learning Objectives

- Understand audit trail importance
- Navigate Audit Shield dashboard
- Configure audit settings
- Monitor audit readiness

4.1 What is Audit Shield?

Audit Shield provides:

Feature	Description
Complete Audit Trail	Every change tracked
Document Storage	Linked source documents
User Tracking	Who did what, when
Compliance Checks	Automated validations
Audit Reports	Ready for auditors

4.2 Audit Trail

What's Tracked:

Action	Details Captured
Create	New record created
Update	Field changes (old → new)
Delete	Record removal
View	Sensitive data access
Export	Data exports
Approve	Approvals and rejections

Viewing Audit History:

1. Open any record
2. Click **Audit Trail** tab
3. View history:

Date	User	Action	Field	Old	New
15/01	S.Mavuso	Update	Price	R100	R120
10/01	J.Smith	Create	-	-	-

4.3 Audit Dashboard

Dashboard Shows:

- Total changes this period
- High-risk activities
- User activity summary
- Document compliance
- Missing attachments

Risk Indicators:

Risk Level	Trigger
Critical	Financial fraud indicators
 High	Unusual patterns
 Medium	Missing documentation
 Low	Normal operations

4.4 Practice Exercise

Exercise 4: Audit Trail Review

1. Open a recent transaction
2. View its audit history
3. Navigate to Audit Shield dashboard
4. Review high-risk activities (if any)

Module 5: Compliance Controls (30 minutes)

Learning Objectives

- Set up compliance rules
- Configure approval workflows
- Manage segregation of duties
- Run compliance checks

5.1 Compliance Rules

Built-in Rules:

Rule	Description
Invoice Matching	PO must match invoice
Credit Limit	Block orders over limit
Duplicate Detection	Flag duplicate payments
Period Lock	Prevent backdating
Approval Thresholds	Required approvals by value

Configuring Rules:

1. Go to **Compliance** → **Audit Shield** → **Rules**
2. Select rule
3. Configure parameters
4. Enable/Disable

5.2 Segregation of Duties

Principle:

No single person should control all aspects of a financial transaction.

Example Separations:

Process	Separated Roles
Purchasing	Requisitioner ≠ Approver ≠ Receiver
Payments	Creator ≠ Approver
Payroll	Processor ≠ Approver

Configuration:

1. Go to **Settings** → **Security** → **Segregation**
2. Define conflicting roles
3. System prevents assignment

5.3 Approval Workflows

Setting Thresholds:

Document	<R10K	R10K-R50K	>R50K
Purchase Order	Auto-approve	Manager	Director
Payment	Clerk	Manager	Director
Credit Note	Auto-approve	Manager	Finance Dir

5.4 Compliance Checks

Running Checks:

1. Go to **Compliance** → **Audit Shield** → **Run Check**
2. Select check type:
 - Duplicate invoices
 - Unreconciled items
 - Missing documents
 - Unusual transactions
3. Click **Run**
4. Review findings
5. Take action on issues

5.5 Practice Exercise

Exercise 5: Compliance Review

1. Review current compliance rules
2. Check segregation of duties settings
3. Run a duplicate invoice check
4. Review any findings

Module 6: Audit Reporting (30 minutes)

Learning Objectives

- Generate audit reports
- Prepare for external audits
- Export audit evidence

- Manage audit queries

6.1 Standard Audit Reports

Available Reports:

Report	Purpose
Audit Trail Report	All changes in period
User Activity Report	Actions by user
Transaction Register	Complete transaction list
Approval Log	All approvals/rejections
Exception Report	Rule violations
Document Register	All attached documents

6.2 Generating Reports

Audit Trail Report:

1. Go to **Reports** → **Audit** → **Audit Trail**
2. Select parameters:
 - Date range
 - Users (all or specific)
 - Modules (all or specific)
 - Action types
3. Click **Generate**
4. Export as PDF/Excel

6.3 Audit Package

Creating Audit Package:

1. Go to **Compliance** → **Audit Shield** → **Audit Package**
2. Select audit requirements:
 - Financial statements
 - Trial balance

- Ledger details
- Bank reconciliations
- Supporting documents

3. Click **Generate Package**

4. Download ZIP file

Package Contains:

- All requested reports
- Supporting documents
- Audit trail
- Control evidence

6.4 Managing Audit Queries

When Auditors Have Questions:

1. Go to **Compliance** → **Audit Queries**
2. Click **+ New Query**
3. Log:
 - Query description
 - Auditor name
 - Due date
 - Assigned to
4. Track responses
5. Attach evidence
6. Close query

6.5 Practice Exercise

Exercise 6: Audit Preparation

1. Generate an Audit Trail Report for last month
2. Create an Audit Package
3. Log a sample audit query
4. Export evidence for the query

Assessment Preparation

Key Topics

SARS Sentinel:

1. VAT rates and categories
2. VAT201 return process
3. PAYE calculation
4. EMP201 and EMP501
5. eFiling submission

Audit Shield:

1. Audit trail purpose
2. Segregation of duties
3. Approval workflows
4. Compliance checks
5. Audit reporting

Sample Questions

Q1: When is the EMP201 due each month?

- A) 15th
- B) 7th
- C) Last day
- D) 25th

Q2: What does segregation of duties prevent?

- A) Duplicate entries
- B) Single person controlling entire transaction
- C) System errors
- D) Late submissions

Quick Reference Card

SARS Deadlines

Return	Due Date
VAT (monthly)	Last working day
VAT (bi-monthly)	Last working day of following month
EMP201	7th of following month
EMP501 (interim)	31 October
EMP501 (annual)	31 May

Navigation

Task	Path
VAT Return	Compliance → VAT → VAT201
EMP201	Compliance → PAYE → EMP201
Audit Trail	Any record → Audit Trail tab
Run Compliance Check	Compliance → Audit Shield → Run Check

Important Tax Codes

Code	Description
3601	Salary
3605	Bonus
3701	Travel allowance
4001	Pension fund contribution
4474	Medical aid contribution
