SiyaBusa ERP - Financial Module Training

FINANCIAL MODULE TRAINING

Complete training guide for finance teams covering Chart of Accounts, General Ledger, AP, AR, Bank Reconciliation, and Financial Reports.

Complete Training Guide for Finance Teams

Training Overview

Duration: 4-6 hours

Prerequisites: Getting Started Guide completed

Certification: Financial Module Specialist

Assessment: 40 questions, 80% to pass

Module 1: Chart of Accounts (45 minutes)

Learning Objectives

By the end of this module, you will be able to:

- Navigate the Chart of Accounts
 - Create, edit, and deactivate accounts
 - Understand account types and their purpose
 - Set up account hierarchies
-

1.1 Understanding the Chart of Accounts

What is a Chart of Accounts?

The Chart of Accounts (COA) is the backbone of your financial system. It's a complete list of every account used to record transactions.

Account Types in SiyaBusa:

Type	Description	Normal Balance	Examples
Asset	What you own	Debit	Bank, Debtors, Equipment
Liability	What you owe	Credit	Creditors, Loans, VAT
Equity	Owner's stake	Credit	Share Capital, Retained Earnings
Revenue	Income earned	Credit	Sales, Interest, Fees
Expense	Costs incurred	Debit	Salaries, Rent, Utilities

1.2 Navigating the Chart of Accounts

Step-by-Step:

1. Click **Financial** in the side menu
2. Click **Setup** → **Chart of Accounts**
3. You'll see a hierarchical list of all accounts

Understanding the Display:

```

Assets (1000-1999)
├── Current Assets (1000-1499)
│   ├── 1000 - Bank - FNB Main Account
│   ├── 1100 - Petty Cash
│   ├── 1200 - Trade Debtors Control
│   └── 1300 - Inventory
└── Non-Current Assets (1500-1999)
    ├── 1500 - Property
    ├── 1600 - Equipment
    └── 1700 - Vehicles

```

1.3 Creating a New Account

When to Create New Accounts:

- New bank account opened
- New expense category needed
- New revenue stream started
- Regulatory requirement

Step-by-Step:

1. Navigate to Chart of Accounts

2. Click **+ Add Account**

3. Complete the form:

Field	Required	Description
Account Code	Yes	Unique number (e.g., 1050)
Account Name	Yes	Descriptive name
Account Type	Yes	Asset/Liability/Equity/Revenue/Expense
Sub-Type	Yes	Current/Non-Current, etc.
Parent Account	No	For hierarchy grouping
Tax Code	No	Default VAT treatment
Description	No	Additional details

4. Click **Save**

Best Practices:

- Use consistent numbering (1000s for Assets, 2000s for Liabilities, etc.)
- Keep names clear and consistent
- Don't create accounts for one-time transactions
- Review with your accountant before major changes

1.4 Practice Exercise

Exercise 1: Create a New Bank Account

Your company opened a new savings account at Standard Bank. Create the account:

- Account Code: 1005
- Account Name: Bank - Standard Bank Savings
- Account Type: Asset
- Sub-Type: Current Asset
- Tax Code: None

Module 2: General Ledger Entries (45 minutes)

Learning Objectives

- Understand journal entries
 - Create manual journal entries
 - Review and reverse entries
 - Run GL reports
-

2.1 Understanding Journal Entries

What is a Journal Entry?

A journal entry records financial transactions using double-entry bookkeeping. Every entry must have equal debits and credits.

Basic Rules:

- Debits = Credits (always)
- Assets increase with Debits
- Liabilities increase with Credits
- Expenses increase with Debits
- Revenue increases with Credits

Example:

Paid R5,000 rent via bank transfer

Debit: Rent Expense (5000)	R5,000
Credit: Bank Account (1000)	R5,000

Total:	R5,000 = R5,000

2.2 Creating a Journal Entry

Step-by-Step:

1. Navigate to **Financial** → **General Ledger** → **Journal Entries**
2. Click **+ New Journal Entry**
3. Complete the header:

Field	Description
Date	Transaction date
Reference	Your reference number
Description	What this entry is for

4. Add lines (minimum 2):

Account	Description	Debit	Credit
5000 - Rent	Office rent Jan 2026	5,000.00	
1000 - FNB Main	Payment		5,000.00

5. Verify Debits = Credits

6. Click **Post** (or **Save as Draft**)

2.3 Common Journal Entry Scenarios

Scenario 1: Recording Depreciation

```
Debit: Depreciation Expense    R2,500
Credit: Accumulated Depreciation R2,500
```

Scenario 2: Correcting an Error

```
Original (wrong): Debit Stationery R1,000
Correction:
  Debit: Office Equipment      R1,000
  Credit: Stationery Expense    R1,000
```

Scenario 3: Accrued Expense

```
Electricity bill received but not paid:
  Debit: Electricity Expense    R3,500
  Credit: Accrued Expenses      R3,500
```

2.4 Reversing Entries

When to Reverse:

- Entry posted to wrong period
- Entry posted with wrong amounts
- Accrual entries at period-end

Step-by-Step:

1. Find the journal entry
2. Click **Actions** → **Reverse**
3. Select reversal date
4. Add reversal reason
5. Click **Confirm Reversal**

2.5 Practice Exercise

Exercise 2: Create a Journal Entry

Record the following: Your company received a R15,000 deposit from a customer for future services.

- Date: Today
- Debit: Bank Account R15,000
- Credit: Deferred Revenue R15,000

Module 3: Accounts Payable (45 minutes)

Learning Objectives

- Process supplier invoices
- Create and manage payments
- Track supplier balances
- Run AP aging reports

3.1 The AP Process Flow

Receive Invoice → Enter Invoice → Approve → Schedule Payment → Pay → Reconcile

3.2 Entering Supplier Invoices

Step-by-Step:

1. Navigate to **Financial** → **Accounts Payable** → **Invoices**
2. Click **+ New Invoice**
3. Complete the header:

Field	Description
Supplier	Select from list
Invoice Number	Supplier's invoice #
Invoice Date	Date on invoice
Due Date	Auto-calculated from terms
Reference	Your PO number

4. Add line items:

Description	Account	Amount	VAT
Office Supplies	5100	1,000.00	15%
Printer Paper	5100	500.00	15%

5. Verify totals
6. Click **Save** or **Submit for Approval**

3.3 Processing Payments

Single Payment:

1. Go to **Accounts Payable** → **Payments**
2. Click **+ New Payment**
3. Select supplier
4. Choose invoices to pay
5. Enter payment details (date, bank account, reference)
6. Click **Process Payment**

Batch Payments:

1. Go to **Payments** → **Payment Run**
2. Set criteria (due date, supplier, amount)
3. Review suggested payments
4. Select/deselect as needed
5. Generate payment file (EFT)
6. Click **Process Batch**

3.4 AP Aging Report

What it Shows:

- All unpaid supplier invoices
- Grouped by age (Current, 30, 60, 90+ days)
- Total amounts owed

How to Run:

1. Go to **Reports** → **Accounts Payable** → **AP Aging**
2. Select date range and grouping
3. Click **Generate**

3.5 Practice Exercise

Exercise 3: Enter and Pay an Invoice

1. Enter an invoice:
 - Supplier: Test Supplier
 - Amount: R2,875 (incl VAT)
 - For: Cleaning services
 2. Process payment:
 - Full payment
 - From FNB Main Account
-

Module 4: Accounts Receivable (45 minutes)

Learning Objectives

- Create customer invoices
 - Record customer payments
 - Apply credit notes
 - Manage collections
-

4.1 Creating Customer Invoices

Step-by-Step:

1. Navigate to **Financial** → **Accounts Receivable** → **Invoices**
2. Click **+ New Invoice**
3. Select customer
4. Add line items
5. Apply discounts if applicable
6. Click **Save & Send** or **Save as Draft**

Invoice Options:

- Email directly from SiyaBusa
- Download PDF
- Print
- Send via WhatsApp (coming soon)

4.2 Recording Customer Payments

Step-by-Step:

1. Go to **Accounts Receivable** → **Receipts**
2. Click **+ New Receipt**
3. Select customer
4. Enter payment details:
 - Amount received
 - Payment method
 - Bank account

- Reference (their payment ref)

5. Allocate to invoices

6. Click **Save**

Allocation Methods:

- **Specific:** Allocate to exact invoices
- **Oldest First:** Auto-allocate to oldest invoices
- **On Account:** Leave unallocated for later

4.3 Credit Notes

When to Use:

- Goods returned
- Invoice error
- Discount after invoicing
- Service not rendered

Step-by-Step:

1. Go to **Invoices** → Find original invoice
2. Click **Actions** → **Create Credit Note**
3. Enter reason and amount
4. Click **Save & Apply**

4.4 AR Aging Report

Running the Report:

1. Go to **Reports** → **Accounts Receivable** → **AR Aging**
2. Select parameters
3. Click **Generate**

Using for Collections:

- Export to Excel
- Filter by days overdue
- Sort by amount
- Assign follow-up tasks

4.5 Practice Exercise

Exercise 4: Full AR Cycle

1. Create an invoice for R11,500 (incl VAT)
 2. Record a partial payment of R5,000
 3. Check the customer's outstanding balance
-

Module 5: Bank Reconciliation (45 minutes)

Learning Objectives

- Import bank statements
 - Match transactions automatically
 - Handle unmatched items
 - Complete reconciliation
-

5.1 Why Reconcile?

Bank reconciliation ensures your books match your actual bank balance. Differences can occur due to:

- Timing (cheques not cleared)
- Errors (wrong amounts)
- Bank fees not recorded
- Fraud detection

5.2 Importing Bank Statements

Supported Formats:

- OFX (recommended)
- CSV
- QIF
- MT940

Step-by-Step:

1. Go to **Financial** → **Banking** → **Reconciliation**

2. Select bank account
3. Click **Import Statement**
4. Choose file format
5. Upload file
6. Map columns (if CSV)
7. Click **Import**

5.3 Automatic Matching

SiyaBusa automatically matches transactions based on:

- Amount
- Date
- Reference number
- Payee name

Match Confidence:

-  High (95%+): Auto-matched
-  Medium (70-94%): Review suggested
- Low (<70%): Manual match needed

5.4 Manual Matching

For unmatched items:

Option 1: Match to Existing

1. Select bank line
2. Click **Find Match**
3. Search for transaction
4. Click **Match**

Option 2: Create New Transaction

1. Select bank line
2. Click **Create**
3. Choose type (Receipt, Payment, Transfer)
4. Complete details
5. Click **Save & Match**

5.5 Completing Reconciliation

1. Review all matched items
2. Investigate any discrepancies
3. Verify closing balance matches bank
4. Click **Complete Reconciliation**

The Reconciliation Formula:

```
Opening Balance (Book)
+ Deposits
- Payments
= Closing Balance (Book)
```

Should equal:

```
Closing Balance (Bank)
+ Outstanding Deposits
- Outstanding Cheques
= Reconciled Balance
```

5.6 Practice Exercise

Exercise 5: Bank Reconciliation

Using the provided sample bank statement:

1. Import the statement
2. Review auto-matched items
3. Manually match 2 items
4. Create 1 new expense for a bank fee
5. Complete the reconciliation

Module 6: Financial Reports (45 minutes)

Learning Objectives

- Run standard financial reports
- Understand report parameters
- Customize report layouts

- Schedule automated reports

6.1 Standard Financial Reports

Report	Purpose	Frequency
Trial Balance	All account balances	Monthly
Income Statement	Profit/Loss for period	Monthly
Balance Sheet	Financial position at date	Monthly
Cash Flow Statement	Cash movements	Monthly/Quarterly
General Ledger	All transactions	As needed

6.2 Running Reports

Step-by-Step:

1. Navigate to **Reports** → **Financial**
2. Select report type
3. Set parameters:

Parameter	Options
Period	Month/Quarter/Year/Custom
Comparison	None/Prior Period/Prior Year/Budget
Level	Summary/Detail
Format	PDF/Excel/Screen

4. Click **Generate**

6.3 Understanding the Trial Balance

The Trial Balance shows all accounts with balances:

Account	Debit	Credit
1000 - Bank FNB	150,000.00	
1200 - Trade Debtors	85,000.00	
1500 - Equipment	250,000.00	
2000 - Trade Creditors		45,000.00
2100 - VAT Payable		12,500.00
3000 - Share Capital		200,000.00
3100 - Retained Earnings		150,000.00
4000 - Sales Revenue		350,000.00
5000 - Cost of Sales	180,000.00	
5100 - Salaries	75,000.00	
5200 - Rent	12,000.00	
5300 - Utilities	5,500.00	
TOTAL	757,500.00	757,500.00

Key Check: Debits must equal Credits

6.4 Understanding the Income Statement

ABC Trading (Pty) Ltd	
Income Statement	
For the Month Ended 31 January 2026	
REVENUE	
Sales Revenue	350,000.00
Other Income	5,000.00
Total Revenue	355,000.00
COST OF SALES	
Opening Stock	50,000.00
Purchases	150,000.00
Less: Closing Stock	(20,000.00)
Cost of Goods Sold	180,000.00
GROSS PROFIT	175,000.00
EXPENSES	
Salaries	75,000.00
Rent	12,000.00
Utilities	5,500.00
Depreciation	3,000.00
Other Expenses	8,000.00
Total Expenses	103,500.00
NET PROFIT BEFORE TAX	71,500.00
Income Tax (28%)	20,020.00
NET PROFIT AFTER TAX	51,480.00

6.5 Scheduling Automated Reports

Step-by-Step:

1. Go to **Reports** → **Scheduled Reports**
2. Click **+ New Schedule**
3. Configure:

Setting	Options
Report	Select from list
Frequency	Daily/Weekly/Monthly
Day	Day of week/month
Time	Send time
Recipients	Email addresses
Format	PDF/Excel

4. Click **Save**

6.6 Practice Exercise

Exercise 6: Financial Reporting

1. Run a Trial Balance for the current month
2. Generate an Income Statement with prior year comparison
3. Export the Balance Sheet to PDF
4. Schedule a monthly Income Statement to your email

Assessment Preparation

Key Topics to Review

1. Chart of Accounts

- Account types and normal balances
- Creating and modifying accounts
- Account hierarchies

2. Journal Entries

- Double-entry principles
- Common transaction types
- Reversing entries

3. Accounts Payable

- Invoice processing workflow
- Payment processing
- AP aging interpretation

4. **Accounts Receivable**

- Invoice creation
- Receipt allocation
- Credit notes

5. **Bank Reconciliation**

- Import process
- Matching methods
- Reconciliation formula

6. **Financial Reports**

- Standard reports
- Parameters and options
- Report scheduling

Sample Assessment Questions

Question 1: Which account type increases with a credit?

- A) Asset
- B) Expense
- C) Liability
- D) Drawings

Question 2: What must always be true about a journal entry?

- A) It must have a description
- B) Debits must equal credits
- C) It must be approved
- D) It must affect cash

Question 3: When reconciling, outstanding deposits are:

- A) Added to book balance

- B) Subtracted from book balance
- C) Added to bank balance
- D) Subtracted from bank balance

Quick Reference Card

Keyboard Shortcuts

Shortcut	Action
Ctrl + /	Search
Ctrl + N	New entry
Ctrl + S	Save
Ctrl + P	Print/PDF
Alt + R	Run report

Common Tasks

Task	Navigation
New Journal	Financial → GL → + New
Supplier Invoice	Financial → AP → Invoices → + New
Customer Invoice	Financial → AR → Invoices → + New
Bank Reconciliation	Financial → Banking → Reconciliation
Trial Balance	Reports → Financial → Trial Balance
