Introduction

Purpose

This playbook provides Customer Success Managers (CSMs) with a comprehensive framework for ensuring SiyaBusa ERP customers achieve their desired outcomes, driving retention, expansion, and advocacy.

Our Mission

"To transform every SiyaBusa customer into a success story by ensuring they maximize the value of our platform while achieving their business objectives."

What is Customer Success?

Customer Success is the proactive approach to ensuring customers achieve their desired outcomes while using SiyaBusa ERP. It's not just support—it's partnership.

Customer Success Philosophy

The 3 Pillars of Customer Success

CUSTOMER SUCCESS		
ADOPTION	RETENTION	EXPANSION
- Onboarding - Training - Engagement	- Health Score - Risk Mgmt - Renewal	- Upsell Opportunities - Cross-sell Modules - Referral Program

Success Principles

- Proactive, Not Reactive** - Anticipate needs before they become problems
- Outcome-Focused** - Measure success by customer business results
- Data-Driven** - Use metrics to guide decisions and interventions
- Relationship-First** - Build trust through consistent, valuable interactions
- Scalable Excellence** - Systematize success without losing personal touch

- Data migration complete and validated
- Key users trained (minimum 80% attendance)
- At least 3 transactions processed successfully
- Customer satisfaction score $\geq 8/10$
- No critical open issues

Adoption & Engagement

Feature Adoption Tracking

Track usage of key features to identify adoption gaps:

Module	Key Features	Target Adoption	Red Flag
Financial	GL posting, Bank rec, Reports	80% monthly	<50% after 60 days
Inventory	Stock movements, Reorder alerts	70% weekly	No activity in 14 days
Sales/CRM	Quotes, Invoices, Pipeline	90% weekly	<5 invoices/month
HR/Payroll	Payrun processing, Leave mgmt	100% monthly	Missed payrun
Compliance	VAT submissions, PAYE	100% on schedule	Missed deadline

Engagement Strategies

Low Adoption Response Plan

Adoption < 30%	→ Emergency intervention call
Adoption 30-50%	→ Personalized training session
Adoption 50-70%	→ Best practices webinar invite
Adoption 70-90%	→ Power user identification
Adoption > 90%	→ Advocate program invite

Monthly Engagement Activities

Activity	Frequency	Purpose
Health check call	Monthly	Review usage, address concerns
Feature spotlight email	Bi-weekly	Drive adoption of underutilized features
Webinar invitation	Monthly	Product updates, best practices
NPS survey	Quarterly	Measure satisfaction
Business review	Quarterly	Strategic alignment

Health Scoring

Customer Health Score Model

The health score predicts churn risk and identifies intervention opportunities.

Health Score Components

Factor	Weight	Data Source	Scoring
Product Usage	30%	Analytics	Daily active users, feature adoption
Support Health	20%	Helpdesk	Ticket volume, resolution time, escalations
Engagement	20%	CRM	Meeting attendance, email response
Payment Health	15%	Finance	On-time payments, outstanding invoices
NPS/Sentiment	15%	Survey	Latest NPS score, feedback

Health Score Calculation

$$\begin{aligned} \text{Health Score} = & (\text{Usage} \times 0.30) + (\text{Support} \times 0.20) + (\text{Engagement} \times 0.20) \\ & + (\text{Payment} \times 0.15) + (\text{NPS} \times 0.15) \end{aligned}$$

Health Score Ranges

Score	Status	Color	Action
85-100	Healthy	Green	Maintain, identify expansion
70-84	Stable	Yellow	Monitor closely, proactive outreach
50-69	At Risk	Orange	Intervention required
0-49	Critical	Red	Executive escalation

Health Dashboard Template

CUSTOMER: ABC Manufacturing (Pty) Ltd

Save Plays

Situation	Save Play
Price objection	Demonstrate ROI, offer payment plan
Missing features	Roadmap preview, custom development quote
Poor support experience	Executive apology, dedicated support
Champion left company	Rapid relationship building with successor
Competitor evaluation	Executive meeting, loyalty discount

Expansion & Upsell

Expansion Opportunities

Module Expansion Matrix

If Using	Recommend	Value Proposition
Financial only	HR/Payroll	Unified employee costs, automated payroll
Inventory only	Sales/CRM	Complete order-to-cash cycle
Sales/CRM only	Inventory	Real-time stock visibility
Core modules	Compliance	Automated SARS submissions
All standard	Industry verticals	Healthcare, Mining, Construction

Expansion Triggers

Trigger	Opportunity	Timing
Growing headcount	HR/Payroll module	When hiring 10+ employees
Multi-location expansion	Warehouse Management	New branch opening
VAT registration	SARS Sentinel	Registration confirmed
Audit concerns	Audit Shield	Year-end approaching
International expansion	Multi-currency	Cross-border sales starting

User Expansion

Current Users	Upsell Trigger	Approach
1-5 users	Department requests access	Offer user bundles
5-15 users	Wait times on licenses	Unlimited user tier
15+ users	Multiple departments	Enterprise tier

Expansion Conversation Framework

1. DISCOVER
"I noticed your team has grown to 25 employees. How are you managing payroll currently?"
2. CONNECT
"Many of our customers in your situation have found that integrated payroll saves 10+ hours per month."
3. DEMONSTRATE VALUE
"Would you like to see how ABC Manufacturing reduced their payroll processing time by 60%?"
4. PROPOSE
"Based on your needs, I'd recommend adding our HR/Payroll module. Here's what that would look like..."
5. SECURE COMMITMENT
"Should we schedule a demo with your HR team next week?"
