Support Overview

Support Mission

"To provide exceptional, timely support that enables our customers to maximize their SiyaBusa ERP investment and achieve their business objectives."

Support Principles

Principle	Description
Customer First	Every interaction prioritizes customer success
Ownership	Take responsibility until resolution
Communication	Keep customers informed throughout
Quality	Resolve correctly the first time
Continuous Improvement	Learn from every interaction

Support Scope

What's Included

Product functionality questions
Configuration and setup assistance
Bug reports and issue resolution
Performance troubleshooting
Integration assistance
Best practice guidance
Security incident response
Data recovery assistance

What's Not Included

Custom development (separate engagement)
Third-party software support
Data entry or migration services
Training (separate service)
Hardware support
Network/infrastructure support

Support Tiers

Tier Structure

Tier Responsibilities

Tier 0 - Self-Service

Resource	Description	Access
Knowledge Base	Articles, guides, FAQs	docs.siyabusa.com
Video Tutorials	Step-by-step videos	learn.siyabusa.com
Community Forum	User discussions	community.siyabusa.com
Status Page	System status, incidents	status.siyabusa.com
Release Notes	Product updates	docs.siyabusa.com/releases

Tier 1 - Support Representatives

Responsibility	Scope
First Response	Initial customer contact
Triage	Assess and categorize issues
Basic Troubleshooting	Common issues, known solutions
Documentation	Ticket logging, knowledge base updates
Handoff	Escalation to Tier 2 when needed

Resolution Target: 70% of tickets

Tier 2 - Senior Support Specialists

Responsibility	Scope
Complex Issues	Multi-module, integration problems
Advanced Configuration	Complex setup scenarios
Root Cause Analysis	Investigate underlying issues
Customer Training	Advanced feature guidance
Escalation Management	Coordinate with Tier 3

Resolution Target: 25% of tickets (escalated)

Tier 3 - Engineering Team

Responsibility	Scope
Code-Level Issues	Bugs requiring code changes
Architecture	System design issues
Data Recovery	Complex data issues
Security Incidents	Security-related issues
Emergency Fixes	Critical hotfixes

Resolution Target: 5% of tickets (escalated)

Severity Levels

Severity Definitions

Level	Name	Description	Business Impact
P1	Critical	System down, data loss risk	Complete business stoppage
P2	High	Major feature unavailable	Significant impact, workaround difficult
P3	Medium	Feature impaired	Moderate impact, workaround exists
P4	Low	Minor issue	Minimal impact

Severity Examples

P1 - Critical

- System completely unavailable
- Data corruption or loss
- Security breach
- Payment processing failure
- All users unable to log in

P2 - High

- Major module not functioning

- Payroll cannot be processed
- SARS submission failing
- Reports not generating
- 50%+ of users affected

P3 - Medium

- Single feature not working
- Slow performance
- Export function failing
- Isolated user issues
- Non-critical integrations down

P4 - Low

- Cosmetic issues
- Feature requests
- Documentation questions
- Minor inconveniences
- How-to questions

Severity Assignment Authority

Initial Severity	Can Be Set By
P4	Tier 1
P3	Tier 1
P2	Tier 2, Customer (verified)
P1	Tier 2, Support Manager, Customer (verified)

Escalation Matrix

Standard Escalation Path

ESCALATION MATRIX				
SEVERITY	TIER 1	TIER 2	TIER 3	MANAGEMENT
P1 Critical	Immediate escalate to T2	Immediate escalate to T3	Immediate engage Engineering	Immediate notify CEO/CTO
P2 High	2 hours escalate to T2	4 hours escalate to T3	8 hours engage as needed	24 hours notify Support Dir
P3 Medium	8 hours escalate to T2	24 hours escalate to T3	48 hours engage as needed	As needed
P4 Low	24 hours escalate as needed	72 hours escalate as needed	As needed	N/A

Management Escalation

Time in Queue	Action
P1: 30 min	Support Manager notified
P1: 1 hour	Director of Support engaged
P1: 2 hours	VP/CTO notified
P2: 8 hours	Support Manager notified
P2: 24 hours	Director of Support engaged
P3: 48 hours	Support Manager notified

Customer-Initiated Escalation

Customers may request escalation via:

Method	Escalates To
Email	escalations@siyabusa.com → Support Manager
Phone	Request supervisor → Tier 2/Manager
Account Manager	Contact AM → Director of Support
Executive	exec-support@siyabusa.com → VP

Response & Resolution Times

Service Level Agreements

Standard Support (Starter Plan)

Severity	Response Time	Update Frequency	Target Resolution
P1	4 hours	4 hours	24 hours
P2	8 hours	8 hours	48 hours
P3	24 hours	24 hours	5 business days
P4	48 hours	As needed	10 business days

Professional Support (Professional Plan)

Severity	Response Time	Update Frequency	Target Resolution
P1	1 hour	2 hours	8 hours
P2	4 hours	4 hours	24 hours
P3	8 hours	8 hours	3 business days
P4	24 hours	As needed	5 business days

Premium Support (Enterprise Plan)

Severity	Response Time	Update Frequency	Target Resolution
P1	15 minutes	1 hour	4 hours
P2	1 hour	2 hours	8 hours
P3	4 hours	4 hours	24 hours
P4	8 hours	As needed	3 business days

Support Hours

Plan	Coverage
Starter	Mon-Fri, 08:00-17:00 SAST
Professional	Mon-Fri, 07:00-19:00 SAST
Enterprise	24/7/365

Holiday Coverage

Plan	Holiday Support
Starter	No (next business day)
Professional	P1/P2 only
Enterprise	Full coverage

Support Channels

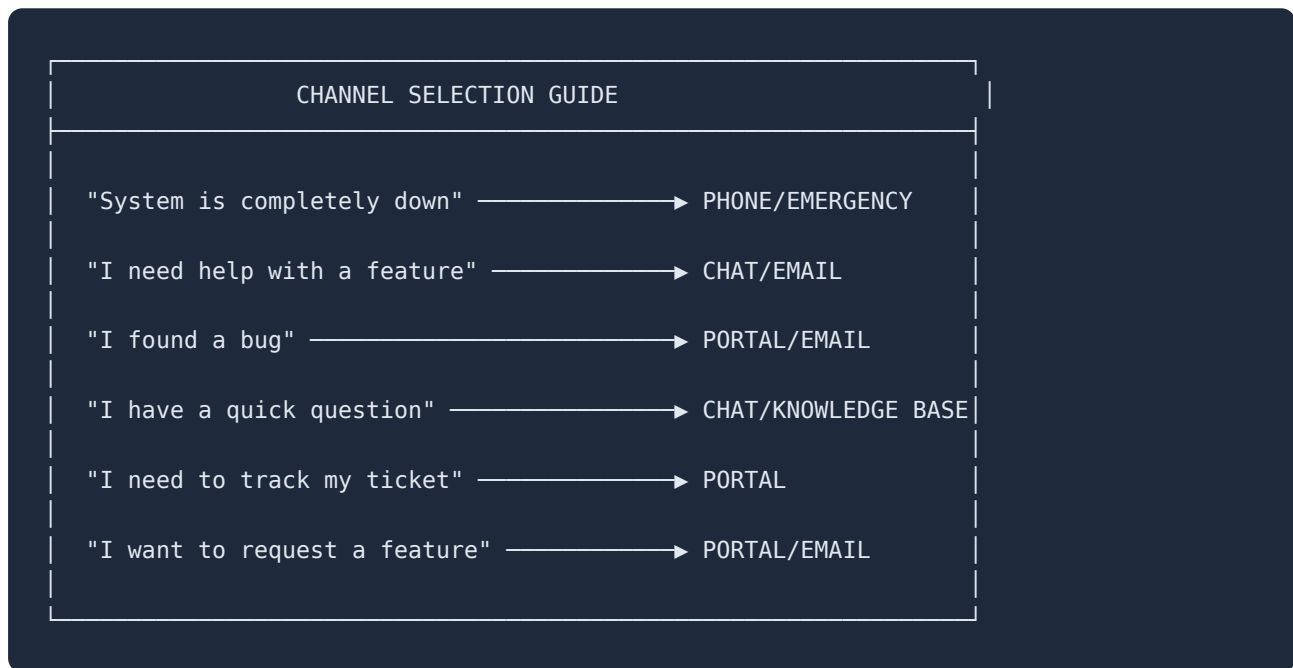

Available Channels

Channel	Best For	Availability	Response
Email	Complex issues, documentation	24/7 submission	Per SLA
Phone	Urgent issues, real-time help	Support hours	Immediate
Live Chat	Quick questions	Support hours	< 5 min
Portal	Ticket tracking, knowledge base	24/7	Per SLA
Emergency	P1 Critical only	24/7	< 15 min

Contact Information

Channel	Contact
Email	support@siyabusa.com
Phone	+27 XX XXX XXXX
Emergency	+27 XX XXX XXXX (Enterprise)
Portal	support.siyabusa.com
Chat	In-app or website

Channel Selection Guide

Escalation Procedures

Internal Escalation Procedure

Step 1: Tier 1 → Tier 2

Trigger Conditions:

- Issue not resolved within Tier 1 timeframe
- Complex technical issue beyond Tier 1 scope
- Customer requests escalation
- Severity upgrade required

Handoff Process:

1. Document all troubleshooting steps taken
2. Gather relevant logs and screenshots
3. Create detailed escalation note
4. Assign to Tier 2 queue
5. Notify customer of escalation

Required Information:

- Ticket number
- Customer details
- Issue description
- Steps to reproduce
- Troubleshooting completed
- Business impact

Step 2: Tier 2 → Tier 3

Trigger Conditions:

- Code-level bug identified
- Data corruption issue
- Security concern
- Issue not resolved within Tier 2 timeframe

Handoff Process:

1. Confirm issue requires engineering
2. Create detailed technical summary
3. Attach all relevant data
4. Create engineering ticket (JIRA)
5. Notify Tier 3 on-call engineer
6. Update customer with engineering ETA

Step 3: Management Escalation

Trigger Conditions:

- SLA breach imminent or occurred
- Customer dissatisfaction
- Resource constraints
- Cross-team coordination needed

Process:

1. Contact Support Manager directly
2. Provide situation summary
3. State needed resources/decisions

4. Document in ticket

Customer Escalation Procedure

If a customer is dissatisfied with support:

Level	Contact	Scope
Level 1	Support Manager	Service quality issues
Level 2	Director of Support	Unresolved escalations
Level 3	VP Customer Success	Executive intervention
Level 4	CEO	Final escalation

Escalation Email Template:

To: escalations@siyabusa.com
Subject: Escalation Request - Ticket #[NUMBER]

Dear Support Management,

I am requesting escalation of ticket #[NUMBER] due to:

- [Reason for escalation]
- [Business impact]
- [Desired outcome]

Customer: [Company Name]
Contact: [Name, Email, Phone]

Thank you for your attention.

On-Call Rotation

On-Call Structure

Role	Coverage	Responsibility
Primary On-Call	24/7 rotating	First response to P1/P2
Secondary On-Call	Backup	Escalation from primary
Engineering On-Call	24/7 rotating	P1 technical issues
Management On-Call	Escalation only	Decision authority

On-Call Schedule

Day	Primary	Secondary	Engineering
Monday	[Name]	[Name]	[Name]
Tuesday	[Name]	[Name]	[Name]
Wednesday	[Name]	[Name]	[Name]
Thursday	[Name]	[Name]	[Name]
Friday	[Name]	[Name]	[Name]
Weekend	[Name]	[Name]	[Name]

On-Call Responsibilities

When On-Call:

- Respond to pages within 15 minutes
- Have laptop and internet access
- Stay within cell coverage
- No alcohol consumption
- Coordinate handoff at shift change

Alerting System

Severity	Alert Method	Response Time
P1	Phone call + SMS + Slack	5 minutes
P2	SMS + Slack	15 minutes
P3	Slack + Email	30 minutes
P4	Email only	2 hours

Contact Directory

Support Team

Role	Name	Email	Phone
Support Manager	[Name]	manager@siyabusa.com	+27 XX XXX XXXX
Senior Support (T2)	[Name]	[email]	+27 XX XXX XXXX
Senior Support (T2)	[Name]	[email]	+27 XX XXX XXXX
Support Rep (T1)	[Name]	[email]	+27 XX XXX XXXX
Support Rep (T1)	[Name]	[email]	+27 XX XXX XXXX

Engineering Team

Role	Name	Email	On-Call
Engineering Lead	[Name]	[email]	Primary rotation
Senior Engineer	[Name]	[email]	Primary rotation
Senior Engineer	[Name]	[email]	Secondary rotation

Management

Role	Name	Email
Director of Support	[Name]	[email]
VP Customer Success	[Name]	[email]
CTO	[Name]	[email]
CEO	[Name]	[email]

Frequently Asked Questions

For Customers

Q: How do I check the status of my ticket?

A: Log in to support.siyabusa.com or reply to your ticket email.

Q: How do I escalate an urgent issue?

A: Email escalations@siyabusa.com or call and request a supervisor.

Q: What information should I include when reporting an issue?

A: Steps to reproduce, error messages, screenshots, and business impact.

Q: Can I request a specific support person?

A: Enterprise customers may request specific resources; contact your CSM.

Q: What if the system is down outside business hours?

A: Enterprise customers have 24/7 support. Others should use the emergency line for P1 issues.

For Support Team

Q: When should I escalate vs continue troubleshooting?

A: Escalate when you've exhausted documented solutions, need code changes, or approaching SLA.

Q: How do I upgrade/downgrade severity?

A: Document justification and update ticket. P1/P2 changes require manager approval.

Q: What if the customer disagrees with severity assessment?

A: Discuss business impact. If unresolved, escalate to Support Manager.

Q: When should I engage Engineering?

A: When issue requires code changes, is a potential bug, or involves data corruption.

Appendix

Appendix A: Ticket Templates

P1 Critical Ticket Template

```
SEVERITY: P1 - CRITICAL
CUSTOMER: [Name]
CONTACT: [Name, Phone, Email]
BUSINESS IMPACT: [Complete description]

ISSUE:
[Detailed issue description]

STEPS TO REPRODUCE:
1. [Step 1]
2. [Step 2]

EXPECTED BEHAVIOR:
[What should happen]

ACTUAL BEHAVIOR:
[What is happening]

TROUBLESHOOTING COMPLETED:
- [Step taken]
- [Result]

WORKAROUND:
[Available / Not available - details]
```

Appendix B: Escalation Checklist

- ☐ Issue fully documented
- ☐ Customer contact information verified
- ☐ Business impact assessed
- ☐ Troubleshooting steps documented
- ☐ Relevant logs/screenshots attached
- ☐ Customer notified of escalation
- ☐ Appropriate team notified

- ☐ Timeline communicated
