### Case Study 1: Precision Engineering Manufacturer

---

#### Industry: Precision Engineering & Manufacturing

**Company Size:** 150 employees

**Location:** Johannesburg, Gauteng

**Implementation Time:** 6 weeks

**Previous System:** QuickBooks + Excel + Access databases

#### The Challenge

This precision manufacturing company was struggling with:

- **7 disconnected systems** — data everywhere, insights nowhere
- **15-day month-end close** — finance team worked weekends
- **No real-time visibility** — management flying blind
- **SARS compliance issues** — missed 2 EMP201 deadlines
- **68% inventory accuracy** — production delays from stockouts
- **30+ hours/week** on manual data entry

*"We were drowning in spreadsheets. Getting accurate data for management meetings took days, not minutes."*

**— CFO**

#### The Solution

Full SiyaBusa ERP implementation:

- Financial Accounting (GL, AP, AR, IFRS)
- Manufacturing (BOMs, production orders, work centers)
- Warehouse Management (bin tracking, barcode scanning)

- Sales & CRM
- Purchase Management
- HR & Payroll (PAYE, UIF, SDL)
- SARS Sentinel (compliance automation)

## Implementation Timeline

**Week 1-2:** Data cleanup and migration

**Week 3-4:** Configuration and testing

**Week 5:** User training (all 150 employees)

**Week 6:** Go-live with parallel running

## The Results

| Metric                | Before      | After      | Improvement            |
|-----------------------|-------------|------------|------------------------|
| Month-End Close       | 15 days     | 3 days     | <b>80% faster</b>      |
| Inventory Accuracy    | 68%         | 97%        | <b>+29%</b>            |
| Admin Time            | 30 hrs/week | 8 hrs/week | <b>73% reduction</b>   |
| SARS Deadlines Missed | 2/year      | 0          | <b>100% compliance</b> |
| Data Entry Errors     | 120/month   | 5/month    | <b>96% reduction</b>   |
| On-Time Delivery      | 78%         | 96%        | <b>+18%</b>            |

## Financial Impact

**Annual Savings:** R1,245,000

- Labour savings: R685,000
- Error reduction: R280,000
- Inventory optimization: R180,000
- SARS penalty avoidance: R100,000

**ROI:** 1,800% over 3 years

**Payback Period:** 4.2 months

## Client Testimonial

*"SiyaBusa transformed our business. The SARS Sentinel feature alone saved us from penalties that would have exceeded our entire ERP investment. Our bankers are impressed with our real-time reporting."*

— CFO

---

## Case Study 2: Professional Services Firm

---

### Industry: Accounting & Advisory

**Company Size:** 45 employees

**Location:** Cape Town, Western Cape

**Implementation Time:** 4 weeks

**Previous System:** QuickBooks + manual timesheets

### The Challenge

This growing accounting firm faced:

- **Manual time tracking** — staff forgetting to log hours
- **Month-end billing chaos** — invoices delayed by 2 weeks
- **No project profitability** — couldn't tell which clients made money
- **Payroll headaches** — processing took 3 days
- **SARS client management** — missed deadlines for clients

### The Solution

SiyaBusa Professional Plan:

- Practice Management (time tracking, billing)
- Project Management (client projects)
- HR & Payroll (staff management)
- Financial Accounting
- SARS Sentinel (own compliance + client tracking)

## The Results

| Metric             | Before   | After   | Improvement          |
|--------------------|----------|---------|----------------------|
| Time Capture Rate  | 65%      | 95%     | <b>+30%</b>          |
| Billing Cycle      | 14 days  | 3 days  | <b>79% faster</b>    |
| Payroll Processing | 3 days   | 2 hours | <b>92% faster</b>    |
| Unbilled Work      | R180K/mo | R25K/mo | <b>86% reduction</b> |
| Collection Days    | 52 days  | 31 days | <b>40% faster</b>    |

## Financial Impact

**Additional Billings Captured:** R1,860,000/year

**Payback Period:** 2 months

## Client Testimonial

*"We were leaving money on the table with unbilled work. SiyaBusa helped us capture over R150,000 per month in previously unbilled hours. The Practice Management module paid for itself in the first month."*

**— Managing Partner**

## Case Study 3: Wholesale Distributor

**Industry:** FMCG Wholesale & Distribution

**Company Size:** 85 employees

**Location:** Durban, KwaZulu-Natal

**Implementation Time:** 5 weeks

**Previous System:** Sage Pastel + Excel

### The Challenge

This wholesale distributor struggled with:

- **Inventory discrepancies** — weekly stocktakes still inaccurate
- **Order errors** — 8% order accuracy issues
- **No batch tracking** — recall management impossible
- **Disconnected warehouse** — paper-based picking

- **Cash flow blind spots** — no real-time visibility

### The Solution

SiyaBusa Enterprise Plan:

- Inventory Management (multi-warehouse)
- Warehouse Management (barcode, picking)
- Sales & CRM (order management)
- Purchase Management (supplier portal)
- Cash Management (forecasting)
- Financial Accounting

### The Results

| Metric             | Before      | After       | Improvement          |
|--------------------|-------------|-------------|----------------------|
| Inventory Accuracy | 82%         | 99%         | <b>+17%</b>          |
| Order Accuracy     | 92%         | 99.5%       | <b>Near-perfect</b>  |
| Pick Rate          | 45 lines/hr | 85 lines/hr | <b>89% faster</b>    |
| Stock Write-Offs   | R45K/mo     | R8K/mo      | <b>82% reduction</b> |
| Cash Conversion    | 68 days     | 42 days     | <b>38% faster</b>    |

### Financial Impact

**Working Capital Improvement:** R2,400,000

**Annual Savings:** R890,000

**Payback Period:** 3 months

### Client Testimonial

*"The warehouse module with barcode scanning transformed our operations. Pick errors dropped to near zero, and we can now handle 40% more volume with the same team."*  
— **Operations Director**

## Case Study 4: Construction Company

### Industry: Commercial Construction

**Company Size:** 220 employees

**Location:** Pretoria, Gauteng

**Implementation Time:** 8 weeks

**Previous System:** Custom Access database + Sage

### The Challenge

This construction company faced:

- **No project costing** — losing money on projects without knowing
- **Subcontractor chaos** — manual tracking, payment disputes
- **B-BBEE tracking** — audits were nightmares
- **Equipment management** — no maintenance schedule
- **Progress billing** — always behind

### The Solution

SiyaBusa Enterprise + Construction Vertical:

- Construction Module (project costing, progress billing)
- Asset Management (equipment, maintenance)
- Purchase Management (subcontractors)
- HR & Payroll (site workers)
- Compliance Hub (B-BBEE, CIDB)
- Financial Accounting

### The Results

| Metric                    | Before       | After     | Improvement          |
|---------------------------|--------------|-----------|----------------------|
| Project Margin Visibility | None         | Real-time | <b>100%</b>          |
| Equipment Downtime        | 12%          | 4%        | <b>67% reduction</b> |
| B-BBEE Audit Prep         | 3 weeks      | 2 hours   | <b>99% faster</b>    |
| Progress Billing          | 30 days late | On-time   | <b>100%</b>          |
| Subcontractor Disputes    | 15/quarter   | 2/quarter | <b>87% reduction</b> |

## Financial Impact

**Margin Improvement:** 3.5% (on R180M revenue = R6.3M)

**Reduced Disputes:** R450,000 savings

**Payback Period:** 6 weeks

## Client Testimonial

*"We discovered we were losing 6% margin on our biggest project — something we never would have known with the old system. SiyaBusa paid for itself on one project."*

— CEO

---

## Case Study 5: Healthcare Provider

### Industry: Medical Services (GP Practice Network)

**Company Size:** 65 employees (12 doctors)

**Location:** Johannesburg, Gauteng

**Implementation Time:** 6 weeks

**Previous System:** Manual + basic accounting

### The Challenge

This multi-practice medical group struggled with:

- **Patient billing chaos** — claims rejected, payments delayed
- **Inventory management** — medical supplies expiring
- **Multi-practice visibility** — no group-level reporting
- **Compliance** — HPCSA requirements overwhelming
- **Staff scheduling** — manual rosters, conflicts

### The Solution

SiyaBusa Enterprise + Healthcare Vertical:

- Healthcare Module (patient billing, claims)
- Inventory Management (medical supplies, expiry tracking)
- Multi-Entity (practice consolidation)
- HR & Payroll (staff, schedules)
- Financial Accounting

## The Results

| Metric              | Before    | After     | Improvement          |
|---------------------|-----------|-----------|----------------------|
| Claims Rejection    | 18%       | 3%        | <b>83% reduction</b> |
| Payment Cycle       | 45 days   | 21 days   | <b>53% faster</b>    |
| Expired Stock       | R35K/mo   | R4K/mo    | <b>89% reduction</b> |
| Admin Time/Practice | 25 hrs/wk | 8 hrs/wk  | <b>68% reduction</b> |
| Group Reporting     | Manual    | Real-time | <b>Instant</b>       |

## Financial Impact

**Improved Collections:** R1,200,000/year

**Reduced Waste:** R372,000/year

**Payback Period:** 4 months

## Client Testimonial

*"Claims rejections were killing our cash flow. SiyaBusa's medical billing validation cut rejections by 83%. We're getting paid faster and our doctors can focus on patients, not paperwork."*  
— **Practice Manager**

## Summary: Results Across All Clients

### Average Improvements

| Metric             | Average Improvement  |
|--------------------|----------------------|
| Month-End Close    | <b>75% faster</b>    |
| Inventory Accuracy | <b>+25%</b>          |
| Admin Time         | <b>70% reduction</b> |
| SARS Compliance    | <b>100%</b>          |
| Data Entry Errors  | <b>90% reduction</b> |
| Payback Period     | <b>4 months</b>      |
| 3-Year ROI         | <b>1,500%+</b>       |

## Common Outcomes

**Real-time visibility** — No more flying blind

**Compliance confidence** — Zero SARS penalties

**Operational efficiency** — 20-30 hours/week saved

**Better decisions** — Data-driven management

**Happier teams** — Less manual work, more value-add
