WE RULE. WE GOVERN. WE EMPOWER.

SiyaBusa ERP - Executive Summary

EXECUTIVE OVERVIEW

A comprehensive summary of the SiyaBusa ERP solution for decision makers.

Enterprise Resource Planning for the South African Mid-Market

"We Rule. We Govern. We Empower."

Company Overview

SiyaBusa ERP is a comprehensive, cloud-native enterprise resource planning platform built specifically for South African businesses. The name "SiyaBusa" is Zulu for "We Rule" or "We Govern," reflecting our mission to empower businesses to take control of their operations.

Headquarters: Johannesburg, South Africa

Founded: 2023

CEO: Sibusiso Mavuso

Parent Company: SGBS Group

The Market Opportunity

The Problem

South African mid-market businesses (R10M-R500M annual revenue) face a critical gap:

- **Global ERP Vendors** (SAP, Oracle, Microsoft) charge R1,500-R3,500 per user per month
- **Entry-Level Solutions** (QuickBooks, Xero) lack the features needed to scale
- **Local Compliance** requires expensive customization with global vendors
- **Implementation** typically takes 6-18 months and costs R300K-R800K

The Market Size

- **60,000+** South African businesses in the mid-market segment
- **\$800M+** ERP market in South Africa
- **15%** annual growth in cloud ERP adoption

Our Solution

SiyaBusa ERP offers enterprise-grade functionality at **40-50% lower cost** than global competitors, with South African compliance built-in from day one.

Competitive Pricing

We use industry-standard per-user pricing, making direct comparison easy:

Plan	Platform Fee	Per User	Minimum
Starter	R8,000/mo	R650/user	5 users
Professional	R15,000/mo	R950/user	10 users
Enterprise	R25,000/mo	R1,200/user	25 users
Corporate	R45,000/mo	R1,500/user	50 users

Comparison (25-User Business)

Vendor	Monthly Cost	Annual Cost
SAP Business One	~R70,000	R840,000
Oracle NetSuite	~R57,500	R690,000
Microsoft Dynamics	~R62,000	R744,000
SiyaBusa Professional	~R38,750	R465,000
Your Annual Savings	—	~R280,000

Product Capabilities

25+ Integrated Modules

Core Business Operations

- Sales & Customer Relationship Management
- Purchase & Procurement
- Inventory Management
- Financial Accounting (IFRS Compliant)
- Cash Management & Bank Reconciliation

Human Resources

- Employee Management
- Payroll (RSA-specific: PAYE, UIF, SDL)
- Leave Management (BCEA Compliant)
- Skills Development & Training

Operations & Manufacturing

- Manufacturing & Bill of Materials
- Warehouse Management
- Project Management
- Asset Management (IAS 16)

Compliance & Governance

- SARS Sentinel (AI-powered tax compliance)
- Audit Hub (Complete audit trails)
- Compliance Hub (B-BBEE, Employment Equity)
- Multi-Entity Consolidation

Industry Verticals

- Healthcare, Mining, Construction
- Property Management, Agriculture
- Professional Services

Key Differentiators

1. Built for South Africa

Unlike global vendors that require expensive localization, SiyaBusa has South African compliance built-in:

- Direct SARS eFiling integration
- PAYE, UIF, SDL calculations updated automatically
- BCEA leave rules enforced
- B-BBEE scorecard tracking

2. Competitive Pricing

Industry-standard per-user model at 40-50% of competitor rates. No hidden fees. Volume discounts for larger deployments.

3. Rapid Implementation

- 4-10 weeks vs 6-18 months for competitors
- Implementation cost: R35K-R150K vs R300K-R800K
- Parallel running minimizes business disruption

4. Modern Technology

- 100% cloud-native architecture
- Full mobile support (iOS, Android, PWA)
- API-first design for integrations
- AI-powered automation and insights

5. Local Support

- South African support team
- Business hours and 24/7 options
- On-site support available
- No overseas call centers

Total Cost of Ownership

3-Year Analysis: 50-User Manufacturing Business

Cost Element	SiyaBusa	Major Competitor
Year 1 Licensing	R750,000	R1,680,000
Implementation	R75,000	R450,000
Training	Included	R80,000
Year 1 Total	R825,000	R2,210,000
3-Year Total	R2,325,000	R5,530,000
3-Year Savings	—	R3,205,000

Technology Platform

Layer	Technology
Frontend	React, TypeScript, Modern UI
Backend	Node.js, Express, REST API
Database	PostgreSQL (Enterprise-grade)
Hosting	AWS Africa Region (Cape Town)
Security	OAuth 2.0, MFA, 256-bit AES

Security & Compliance

- POPIA compliant
- SOC 2 Type II (in progress)
- 99.9% uptime SLA
- Daily backups with geo-redundancy
- Role-based access control

Implementation Approach

Phase 1: Discovery (Week 1-2)

- Business process analysis
- Requirements gathering
- Configuration planning

Phase 2: Configuration (Week 2-4)

- System setup and customization
- Data migration planning
- Integration setup

Phase 3: Migration (Week 4-6)

- Data migration and validation
- Parallel running
- User acceptance testing

Phase 4: Training (Week 5-7)

- End-user training
- Administrator training
- Documentation delivery

Phase 5: Go-Live (Week 6-10)

- Production deployment
 - Hyper-care support
 - Performance optimization
-

Customer Success

Value Delivered

- **20-30 hours/week** saved on administrative tasks
- **95%** reduction in data entry errors
- **100%** SARS submission accuracy
- **4-6 month** payback period

Industry Coverage

- Manufacturing & Distribution
 - Professional Services
 - Healthcare & Medical
 - Mining & Resources
 - Construction & Property
 - Agriculture & Farming
-
