SiyaBusa ERP - Frequently Asked Questions

FREQUENTLY ASKED QUESTIONS

Common questions and answers regarding SiyaBusa ERP features, implementation, and support.

Everything You Need to Know

Pricing & Plans

Q: How much does SiyaBusa ERP cost?

A: We use industry-standard per-user pricing, offering **40-50% savings** compared to competitors:

Plan	Platform Fee	Per User	Minimum Users
Starter	R8,000/mo	R650/user	5 users
Professional	R15,000/mo	R950/user	10 users
Enterprise	R25,000/mo	R1,200/user	25 users
Corporate	R45,000/mo	R1,500/user	50 users

Example: 25-user Professional = R15,000 + (25 × R950) = **R38,750/month**

Q: How does your pricing compare to competitors?

A: We're approximately 40-50% of competitor cost using the same per-user model:

Vendor	Per-User Rate	Platform Fee	SiyaBusa Savings
SAP Business One	R1,800-R3,500/user	R25,000+	40-50%
Oracle NetSuite	R1,500-R2,800/user	R20,000+	40-50%
Microsoft Dynamics	R1,600-R3,200/user	R22,000+	40-50%
Sage X3	R1,200-R2,500/user	R18,000+	40-50%
SiyaBusa ERP	R650-R1,500/user	R8,000-R45,000	—

Real Example: A 50-user business:

- SAP Business One: ~R140,000/month
 - SiyaBusa Professional: ~R62,500/month
 - **You Save: R77,500/month (R930,000/year)**
-

Q: Are there any hidden fees?

A: No. Our pricing is completely transparent:

Always Included:

- All modules for your tier (no extra module fees)
- Software updates and new features
- Standard support
- Training (hours vary by plan)
- Security patches
- Data backups

Optional Extras (only if you need them):

- Custom development
 - Additional training beyond included hours
 - Premium support upgrades
 - Complex data migration
-

Q: Why use per-user pricing?

A: Per-user pricing is the industry standard because:

1. **Fair scaling** — You pay for what you use
2. **Predictable costs** — Easy to budget as you grow
3. **Comparable** — You can directly compare to competitors
4. **Value alignment** — More users = more value from the system

Volume discounts apply for 50+ users (up to 15% off).

Q: Is there a free trial?

A: Yes! We offer:

1. **Free Demo** (30 minutes) — See the system with sample data
 2. **Free Trial** (14 days) — Full system access, no credit card required
 3. **Proof of Concept** (30 days) — Test with your actual data
-

Q: Do you offer monthly or annual billing?

A: Both!

- **Monthly:** Pay-as-you-go, flexible scaling
 - **Annual:** Save 10-18% depending on plan
 - **3-Year:** Save up to 25% + price lock guarantee
-

Q: Are there volume discounts?

A: Yes! We reward scale:

User Count	Discount
51-100 users	5% off
101-150 users	8% off
151-250 users	10% off
251-500 users	15% off
500+ users	Custom pricing

South African Compliance

Q: Is SiyaBusa SARS-compliant?

A: Yes! Full SARS integration is built-in, not an add-on:

- **EMP201** — Monthly employer reconciliation
- **EMP501** — Annual reconciliation
- **IRP5/IT3(a)** — Employee tax certificates
- **VAT201** — VAT returns
- **IT14** — Income tax returns
- **Direct eFiling** — Submit directly to SARS

Our **SARS Sentinel AI** also:

- Tracks all compliance deadlines
 - Sends automated reminders
 - Validates data before submission
 - Provides audit trail documentation
-

Q: Does it calculate PAYE, UIF, and SDL automatically?

A: Yes! All calculations are automatic and always up-to-date:

Tax	Calculation	Updates
PAYE	Current SARS tax tables	Auto-updated annually
UIF	2% (1% employee + 1% employer)	Automatic
SDL	1% of payroll	Automatic

You never have to manually calculate or worry about being out of date.

Q: Is it BCEA-compliant for leave?

A: Yes! Built-in leave management follows BCEA rules:

Leave Type	Entitlement	How We Handle It
Annual Leave	21 days/year	Auto-accrued, pro-rated
Sick Leave	30 days/3-year cycle	Tracked with balance alerts
Family Responsibility	3 days/year	Automatic reset annually
Maternity Leave	4 consecutive months	Full compliance tracking

Q: Does it support B-BBEE and Employment Equity?

A: Yes! Complete compliance tracking:

- **B-BBEE Scorecard:** Track all elements, generate reports
- **EEA2 & EEA4:** Generate required reports
- **Employment Equity Plans:** Track and monitor progress
- **Skills Development:** Record training for SDL compliance

Q: What about POPIA compliance?

A: SiyaBusa is fully POPIA-compliant:

- 256-bit data encryption (at rest and in transit)
- Role-based access controls
- Complete audit trails
- Data retention policies

- Right to deletion support
- Consent management
- Data breach notification procedures

Implementation

Q: How long does implementation take?

A: Much faster than competitors:

Company Size	SiyaBusa	Competitors
Small (5-25 users)	3-4 weeks	3-6 months
Medium (25-75 users)	6-8 weeks	6-12 months
Large (75-200 users)	10-14 weeks	12-18 months

Q: What does implementation cost?

A: Implementation packages:

Package	Price	Suitable For
QuickStart	R35,000	5-20 users
Standard	R75,000	20-75 users
Enterprise	R150,000-R350,000	75+ users

Compare this to R300,000-R500,000+ for competitor implementations.

Q: What does implementation include?

A: Our standard implementation includes:

1. **Discovery** — Understanding your business
2. **Configuration** — Setting up the system for your needs
3. **Data Migration** — Moving data from your current system
4. **Training** — Teaching your team
5. **Go-Live Support** — Being there when you launch
6. **Hyper-Care** — Extra support for the first few weeks

Q: Can you migrate data from our current system?

A: Yes! We have experience migrating from:

- Sage Pastel / Sage Evolution / Sage X3
 - SAP Business One
 - QuickBooks
 - Xero
 - Microsoft Dynamics
 - Oracle NetSuite
 - Custom spreadsheet-based systems
 - Legacy accounting systems
-

Q: Do we need to shut down during migration?

A: No. We use a parallel running approach:

1. **Phase 1:** SiyaBusa runs alongside your current system
2. **Phase 2:** Both systems operate in sync
3. **Phase 3:** Gradual transition to SiyaBusa
4. **Phase 4:** Old system decommissioned

This ensures zero business disruption.

Technical

Q: Is SiyaBusa cloud-based?

A: Yes. 100% cloud-native:

- Access from anywhere (browser-based)
 - Hosted in South African data centers
 - Automatic updates (no IT overhead)
 - 99.9% uptime SLA
 - Scales automatically with your business
-

Q: What technology is it built on?

A: Modern, enterprise-grade stack:

Layer	Technology
Frontend	React, TypeScript
Backend	Node.js, Express
Database	PostgreSQL
Hosting	AWS (Africa region)
Security	OAuth 2.0, JWT, 256-bit AES

Q: Is there a mobile app?

A: Yes! Available on:

- iOS (iPhone/iPad)
- Android (Phone/Tablet)
- Progressive Web App (any device)

Mobile features include:

- Dashboard and reports
- Expense submission
- Approval workflows
- Inventory scanning
- Leave requests
- Time tracking

Q: Can it integrate with our other systems?

A: Yes! We offer:

Built-in Integrations:

- SARS eFiling
- Banks (Nedbank, FNB, Standard Bank, ABSA)
- Payment gateways (PayFast, Yoco, Peach Payments)
- Shipping (Courier Guy, DPD, Fastway)

API Integration:

- RESTful API with full documentation
- Webhooks for real-time events

- Custom integrations available

Q: What security measures are in place?

A: Enterprise-grade security:

Layer	Protection
Data at rest	256-bit AES encryption
Data in transit	TLS 1.3
Authentication	OAuth 2.0 + MFA
Access control	Role-based (RBAC)
Audit	Complete audit trail
Backup	Daily + real-time replication
Penetration testing	Annual third-party audit

Support

Q: What support is included?

A: All plans include standard support:

Plan	Response Time	Channels	Hours
Starter	4 hours	Email, ticket	Business hours
Professional	2 hours	Email, phone, chat	Extended hours
Enterprise	1 hour	All channels	24/7
Corporate	30 minutes	Dedicated team	24/7

Q: Is there local South African support?

A: Yes! Our support team is:

- Based in South Africa
- English and Afrikaans fluent
- 🕒 Available during SA business hours (with 24/7 options)
- On-site support available for Enterprise/Corporate

Q: How do I get help?

A: Multiple channels:

1. **Knowledge Base** — Self-service articles and guides
 2. **In-app Help** — Contextual assistance
 3. **Email** — support@siyabusa.co.za
 4. **Phone** — Priority plans and above
 5. **Live Chat** — Professional plans and above
 6. **On-site** — Enterprise/Corporate plans
-

Company & Trust

Q: Who is behind SiyaBusa ERP?

A: SiyaBusa is part of SGBS Group, a South African technology company focused on making enterprise software accessible to mid-market businesses.

Leadership:

- **Sibusiso Mavuso** — CEO & Founder
 - Development team in Johannesburg, South Africa
 - Partnership network across Southern Africa
-

Q: How long has SiyaBusa been around?

A: The SiyaBusa platform has been in development since 2023, with production deployment in 2025. Our team brings decades of combined ERP experience from SAP, Oracle, and Microsoft implementations.

Q: What does "SiyaBusa" mean?

A: "SiyaBusa" is a Zulu word meaning "We Rule" or "We Govern" — reflecting our mission to help businesses take control of their operations through technology.

Our tagline: **"We Rule. We Govern. We Empower."**

Q: Can I talk to a reference customer?

A: Absolutely! We can connect you with:

- Similar-sized businesses
- Companies in your industry

- Organizations that have recently implemented

Just ask your sales contact for reference introductions.

Getting Started

Q: How do I get a demo?

A: Easy!

1. **Email:** sibusiso@sbgsgroup.co.za
2. **Phone:** +27 74 012 6873
3. **Website:** Request a demo online

We'll schedule a 30-minute call to understand your needs, then show you SiyaBusa in action.

Q: What's the next step after the demo?

A: Typical journey:

1. **Discovery Call** (30 min) — Understand your needs
2. **Demo** (60 min) — See the system
3. **Proposal** — Receive custom pricing and scope
4. **Trial/POC** (optional) — Test with your data
5. **Agreement** — Sign and kick off
6. **Implementation** — We set everything up
7. **Go-Live** — You're running on SiyaBusa!

Total time from first call to go-live: **4-12 weeks** depending on complexity.
