WE RULE. WE GOVERN. WE EMPOWER.

SiyaBusa ERP - Pricing Presentation

PRICING STRATEGY

A presentation overview of our pricing model and value proposition.

Industry-Standard Pricing | 40-50% Savings

"We Rule. We Govern. We Empower."

Our Pricing Philosophy

Fair. Transparent. Competitive.

We use the same per-user pricing model as SAP, Oracle, Microsoft, and Sage — the industry standard. The difference? We deliver **40-50% savings** with full South African compliance built-in.

How ERP Pricing Works

Industry Standard: Platform + Per-User

Most enterprise ERP vendors charge:

1. **Platform Fee** — Base cost for the software
2. **Per-User Fee** — Additional cost per active user
3. **Module Fees** — Extra for specific functionality
4. **Implementation** — One-time setup costs

SiyaBusa simplifies this:

- Platform fee (transparent)
 - Per-user fee (competitive)
 - All modules included per tier
 - Training included
-
