WE RULE. WE GOVERN. WE EMPOWER.

SiyaBusa ERP - Product Overview

PRODUCT CAPABILITIES

An in-depth look at the modules and capabilities of the SiyaBusa ERP system.

Enterprise Excellence. South African Innovation.

"We Rule. We Govern. We Empower."

Executive Summary

SiyaBusa ERP is a comprehensive, cloud-native Enterprise Resource Planning system specifically designed for South African mid-market businesses. Built with modern technologies and deep understanding of local compliance requirements, it provides a complete suite of business management tools at 40% of competitor cost.

Key Facts:

- **25+ Complete Modules** — Production-ready
 - **400+ API Endpoints** — Fully documented
 - **228+ Database Tables** — Enterprise-grade
 - **RSA Compliance** — SARS, BCEA, LRA, B-BBEE built-in
 - **Cloud-Hosted** — AWS Cape Town (local data residency)
-

Value Proposition

For CFOs & Financial Controllers

"Real-time financial visibility with built-in RSA compliance"

- IFRS-compliant financial accounting
- Automated SARS submissions (EMP201, VAT201, IT14, IRP5)
- Multi-dimensional reporting (Department, Project, Cost Center)
- Bank reconciliation and cash flow forecasting

For Operations Managers

"End-to-end operational control from quote to delivery"

- Integrated Sales, Purchase, Inventory, Manufacturing, Warehouse

- Real-time stock tracking across multiple locations
- Production planning with BOM and routing management
- Automated procurement workflows

For HR Managers

"Simplified payroll with complete BCEA compliance"

- Automated PAYE, UIF, and SDL calculations
- Leave management per Basic Conditions of Employment Act
- Employment Equity and Skills Development tracking
- EMP201, IRP5, EMP501 submission management

For Business Owners

"One system, complete business visibility"

- Executive dashboard with company health KPIs
 - All modules integrated — no data silos
 - Cloud-hosted with 99.9% uptime SLA
 - 40% of competitor cost
-

Key Differentiators

1. Built for South Africa

- Full RSA labour law compliance (BCEA, LRA, Employment Equity Act)
- Native SARS eFiling integration
- ZAR currency and SA tax calculations throughout
- South African ID number validation
- Local phone number formats (+27)
- SA public holidays and tax years

2. 40% of Competitor Cost

- SAP/Oracle/Microsoft: R50,000-R200,000/month
- **SiyaBusa: R3,500-R25,000/month**
- All modules included (no extra charges)
- No per-user fees (Professional and above)
- All-inclusive support and updates

3. Modern Technology Stack

- Cloud-native architecture (AWS Cape Town)
- React 18 + TypeScript frontend
- Node.js + PostgreSQL backend
- Mobile-responsive design
- Real-time data synchronization

4. Rapid Implementation

- 4-8 weeks vs 6-18 months for competitors
- Proven implementation methodology
- Parallel running support
- Change management training

5. All-Inclusive Pricing

- One price includes everything
 - No module fees
 - No per-user charges (Pro+)
 - Support and updates included
 - Predictable, budgetable costs
-
