Describe the project activities in detail:

The Lushikishini Cattle Feedlot Cooperative will establish a commercial cattle feedlot operation with the following activities:

- **Purchase:** Acquire weaner cattle (180-220 kg) from local farmers at approximately E6,500 each
- **Feeding:** Intensive feeding program for 90-120 days using locally sourced crop residues and supplements
- **Infrastructure:** Construct 3 additional feedlots (10 cattle each) to complement our existing kraal
- **Sales:** Sell finished cattle (380-450 kg) to registered abattoirs at approximately E14,000 each
- **Cycle:** Continuous monthly sales cycle of 10 cattle with replacement purchases

Objectives and Expected Outcomes:

- Generate sustainable income for 10 member households (~E54,000 annually per member)
- Create employment within the Lushikishini community
- Contribute to food security through local beef production
- Develop local capacity in commercial livestock farming
- Establish a replicable model for community-based agricultural enterprise
