

LUSHIKISHINI

Cattle Feedlot Cooperative

BUSINESS PLAN

E500,000

Regional Development Fund Grant Application

Location:

Lushikishini, kaMavuso, Phondo Inkhundla

Traditional Authority:

Chief Somtsewu

Members:

10 Community Members

Date:

January 2026

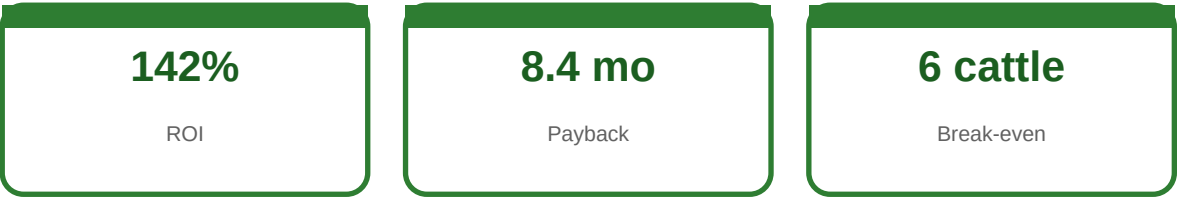

EXECUTIVE SUMMARY

The Lushikishini Cattle Feedlot Cooperative is a community-driven agricultural initiative established by 10 members from Lushikishini, kaMavuso. We seek E500,000 from the Regional Development Fund to establish a sustainable cattle feedlot operation that will transform the economic prospects of our community.

Project Highlights

- Strong Team: 10 committed members including qualified agronomist, accountant, and experienced cattle handlers
- Proven Concept: Feedlot farming is established and profitable across Southern Africa
- Demonstrated Commitment: E60,000 own contribution (4 cattle + existing kraal + labour)
- Market Access: Established relationships with abattoir buyers who collect from farm
- Community Support: Operating on communal land approved by Chief Somtsewu

PROJECT DESCRIPTION

What We Do

The project operates a cattle feedlot business using a batch feeding and rotational sales model:

Step 1: Purchase

Buy weaner calves (180-220 kg) at market prices (~E6,500 each)

Step 2: Feed

Intensive feeding for 90-120 days using crop residues and supplements

Step 3: Sell

Sell finished cattle (380-450 kg) to abattoirs at ~E14,000 each

Step 4: Repeat

Continue cycle with new batch - selling 10 cattle every month

Infrastructure Plan

Feedlot	Status	Capacity	Cost
Feedlot 1	✓ Already Built	10 cattle	E10,000 (own)
Feedlot 2	To be built	10 cattle	E35,000
Feedlot 3	To be built	10 cattle	E35,000
Feedlot 4	To be built	10 cattle	E35,000
TOTAL		40 cattle	E115,000

OUR TEAM

The cooperative brings together 10 dedicated members from the Lushikishini community, combining professional expertise with hands-on cattle farming experience.

Leadership Team

Sibusiso Mavuso

Chairperson & Project Leader

Qualified Accountant • Overall leadership and financial oversight

Sibusiso Dlamini

Technical Director

Technical expertise • Equipment and infrastructure management

Seluleko Ndwandwe

Operations Manager

Experienced cattle handler • Daily operations management

Sanele Dlamini

Technical Advisor (Agronomy)

BSc Agriculture (UNESWA) • Feed formulation and animal nutrition

Zakhele Dlamini

Secretary & Environmental

Qualified Environmentalist • Records and sustainable practices

All Members

#	Name	Role
1	Sibusiso Mavuso	Chairperson / Project Leader
2	Sibusiso Dlamini	Technical Director
3	Seluleko Ndwandwe	Operations Manager
4	Sanele Dlamini	Technical Advisor (Agronomy)
5	Zakhele Dlamini	Secretary
6	Temancele Mavuso	Member / Worker
7	Gugu Vilakati	Member / Worker
8	Vuyo Motsa	Member / Worker
9	Neliso Mavuso	Member / Worker
10	Sphumelele Shabangu	Member / Worker

FINANCIAL PROJECTIONS

Capital Requirements

Item	Amount
A. INFRASTRUCTURE	
Feedlot construction (3 units)	E105,000
Feeding troughs (12 units)	E24,000
Water system	E25,000
Handling crush & storage shed	E35,000
Subtotal Infrastructure	E189,000
B. LIVESTOCK	
36 Weaner cattle @ E6,500	E234,000
C. OPERATING CAPITAL	
Feed (3 months)	E57,000
Vet supplies & transport	E20,000
TOTAL GRANT REQUESTED	E500,000

Funding Summary

Source	Amount	Percentage
RDF Grant Requested	E500,000	89.1%
Own Contribution	E60,000	10.9%
TOTAL PROJECT	E560,000	100%

MONTHLY REVENUE (At Full Operation)

Income

Description	Amount
Sale of 10 finished cattle @ E14,000	E140,000

Expenses

Description	Amount
Replacement weaners (10 @ E6,500)	E65,000
Feed costs	E18,900
Veterinary & medicine	E2,000
Utilities & transport	E4,000
TOTAL EXPENSES	E89,900

MONTHLY NET PROFIT
E50,100

After 20% reserves → E40,080 distributed to members
E4,008 per member per month

Key Financial Indicators

142% ROI	8.4 mo Payback	6 cattle Break-even	40% Safety Margin
-------------	-------------------	------------------------	----------------------

5-YEAR FINANCIAL PROJECTION

Year	Revenue	Costs	Profit	Per Member
Year 1	E980,000	E629,300	E350,700	E31,563
Year 2	E1,680,000	E1,078,800	E601,200	E54,108
Year 3	E1,680,000	E1,078,800	E601,200	E54,108
Year 4	E1,680,000	E1,078,800	E601,200	E54,108
Year 5	E1,680,000	E1,078,800	E601,200	E54,108
5-YR TOTAL	E7,700,000	E4,944,500	E2,755,500	E247,995

Risk Analysis

Risk	Likelihood	Impact	Mitigation
Disease outbreak	Medium	High	Vaccination, quarantine, vet
Feed price increase	Medium	Medium	Bulk buying, grow fodder
Cattle theft	Low	High	Security, night watch
Market price drop	Medium	Medium	Quality focus, contracts

IMPLEMENTATION TIMELINE

Month 1 Grant approval & disbursement
Procurement planning, site preparation, order materials

Month 2 Construction begins
Build Feedlot 2, install water system, purchase first 10 weaners

Month 3 Expansion continues
Build Feedlot 3, purchase second batch, begin feeding

Month 4 Complete infrastructure
Build Feedlot 4, storage shed, purchase third batch

Month 5 First sales!
Sell first 10 finished cattle, purchase fourth batch

Month 6+ Full operation
Monthly cycle: Buy 10, Feed 40, Sell 10

Sustainability

SELF-SUSTAINING AFTER INITIAL GRANT

Monthly profits fund ongoing operations, maintenance, and future growth
