Beneficiaries

1. Project Overview

The **Lushikishini Cattle Feedlot Cooperative** is a community-driven agricultural initiative established by 10 members from Lushikishini, kaMavuso area. We seek **E500,000** from the Regional Development Fund to establish a sustainable cattle feedlot operation that will transform the economic prospects of our community.

Business Model Overview

Monthly Cycle: Buy 10 weaners → Feed 40 cattle → Sell 10 finished = **E50,100 profit/month**

2. Infrastructure Plan

Our feedlot operation requires four separate enclosures to manage the 4-month feeding cycle effectively. This allows cattle to be grouped by entry date and ensures a steady monthly sales flow.

Feedlot Infrastructure

Total Capacity: 40 cattle | **Total Infrastructure:** E115,000 (E105,000 grant + E10,000 own)

3. Our Team

The cooperative brings together **10 dedicated members** from the Lushikishini community, combining professional expertise with hands-on cattle farming experience.

#	Name	Role	Contribution
1	Sibusiso Mavuso	Project Leader / Treasurer	Leadership, 4 cattle (E40,000)
2	Sanele Dlamini	Technical Advisor (Agronomist)	Feed formulation, animal nutrition
3	Zakhele Dlamini	Secretary / Environmental	Administration, sustainability
4	Seluleko Ndwandwe	Operations Manager	Daily operations oversight
5	Sibusiso Dlamini	Cattle Handler	Labour, cattle experience
6	Temancele Mavuso	Member / Worker	Labour contribution
7	Gugu Vilakati	Member / Worker	Labour contribution
8	Vuyo Motsa	Member / Worker	Labour contribution
9	Neliso Mavuso	Member / Worker	Labour contribution
10	Sphumelele Shabangu	Member / Worker	Labour contribution

4. Budget & Funding Request

Detailed Budget Breakdown

Item Description		Amount
A. INFRASTRUCTURE		
	3 Feedlot constructions (poles, wire, cement)	E105,000
	Feeding troughs (12 units @ E2,000)	E24,000
	Water system (tanks, pipes, troughs)	E25,000
	Handling crush	E15,000
	Feed storage shed	E20,000
	Infrastructure Subtotal	E189,000
B. LIVESTOCK		
	36 Weaner cattle @ E6,500 each	E234,000
C. OPERATING CAPITAL		
	Feed supplies (3 months)	E57,000
	Veterinary supplies & medicines	E10,000
	Transport & miscellaneous	E10,000

Own Contribution Detail

Contribution Type	Description	Value
Existing Cattle	4 cattle owned by Sibusiso Mavuso	E40,000
Existing Infrastructure	1 kraal (10×12m) already built	E10,000
Labour Contribution	Construction labour from all members	E10,000
TOTAL OWN CONTRIBUTION		E60,000

5. Financial Projections

Monthly Profit Calculation (at Full Operation)

INCOME

Sale of 10 finished cattle	E140,000
@ E14,000 each	

EXPENSES

Replacement weaners (10)	E65,000
Feed costs	E18,900
Vet & medicine	E2,000
Utilities & transport	E4,000
Total	E89,900

MONTHLY NET PROFIT

E50,100

E4,008 per member (after 20% reserves)

5-Year Revenue Projection

Year 1		E 350,700
Year 2		E 601,200
Year 3		E 601,200
Year 4		E 601,200
Year 5		E 601,200

5-Year Cumulative Profit: E 2,755,500

Return on Investment

6. Implementation Timeline

MONTH 1	Grant Approval & Setup Receive funds • Order materials • Site preparation • Purchase first 10 weaners
MONTH 2	Construction Begins Build Feedlot 2 • Install water system • Purchase second batch (10 weaners)
MONTH 3	Expansion Continues Build Feedlot 3 • Storage shed • Purchase third batch (10 weaners)
MONTH 4	Complete Infrastructure Build Feedlot 4 • Handling crush • Purchase fourth batch (10 weaners) • Full capacity!
MONTH 5	 FIRST SALES! Sell first 10 finished cattle • Revenue begins • Continuous cycle starts
MONTH 6+	Full Operation Monthly cycle: Buy 10 → Feed 40 → Sell 10 = E50,100 profit every month

7. Risk Analysis & Mitigation

Risk	Likelihood	Impact	Mitigation Strategy
Disease outbreak	Medium	High	Vaccination program, quarantine protocols, veterinary relationship, biosecurity measures
Feed price increase	Medium	Medium	Bulk purchasing agreements, grow own fodder, diversify feed sources, crop residue contracts
Cattle theft	Low	High	Security fencing, night watch rotation, community awareness, brand registration
Market price drop	Medium	Medium	Quality focus for premium prices, multiple buyer relationships, timing flexibility
Drought/Feed shortage	Medium	Medium	Feed storage facility, emergency reserve fund, farmer network for crop residues

8. Impact & Sustainability

Sustainability Plan

This project is fully self-sustaining after the initial grant.

Monthly profits fund all ongoing operations, maintenance, and future growth. The cooperative builds reserves to handle emergencies and expand capacity over time.

Reserve Fund	Monthly Allocation	Purpose
Emergency Reserve	E5,010 (10% of profit)	Disease outbreaks, cattle deaths, unexpected costs
Development Fund	E5,010 (10% of profit)	Maintenance, equipment replacement, future expansion

9. Conclusion

Why Invest in Lushikishini Cattle Feedlot?

- ✓ **Proven Business Model:** Feedlot farming is established and profitable across Southern Africa
- ✓ **Strong Team:** Qualified agronomist, accountant, and experienced cattle handlers
- ✓ **Demonstrated Commitment:** E60,000 own contribution (10.9% of project)
- ✓ **Market Access:** Established relationships with abattoir buyers
- ✓ **Community Support:** Operating on communal land approved by Chief Somtsewu
- ✓ **Excellent Returns:** 142% ROI, 8.4-month payback period

We respectfully request E500,000 from the Regional Development Fund

to transform the economic prospects of our community through sustainable cattle farming.
