Part B: Project Details

B.1 Project Title

Lushikishini Community Cattle Feedlot Project

B.2 Project Summary

The Lushikishini Cattle Feedlot Project is a community-owned agricultural enterprise designed to fatten cattle for the beef market. The cooperative will establish four (4) feedlot units with a combined capacity of 40 cattle. Operating on a 90-day fattening cycle, the project will add an average of 120kg to each animal's weight, producing premium market-ready cattle for sale to abattoirs and local butcheries.

B.3 Project Location

Site Name	Lushikishini Community Land
Coordinates	kaMavuso Area, Phondo Inkhundla
Land Tenure	Swazi Nation Land (Community Allocation)
Land Size	2 hectares
Water Source	Nearby river and borehole access

B.4 Project Objectives

1. **Economic Development:** Create sustainable income for 10 cooperative members
2. **Employment Creation:** Generate 40 direct and indirect jobs in the community
3. **Food Security:** Contribute to national beef production and food security
4. **Skills Transfer:** Develop livestock management capabilities in the community
5. **Model Enterprise:** Establish a replicable model for community-based agriculture
