Investment Period: February – April 2026

Instrument: SAFE (Post-Money)

Valuation Cap: R2,000,000

Target Milestone: First Paying Customer · March 2026

MASAPHOKATI TECHNOLOGIES (PTY) LTD

February 2026 · Confidential

Use of Funds

R30,000 Seed Investment · February – April 2026

Purpose

This funding transitions SiyaBusa ERP from development to production-ready commercialization.

The software is built and functional. However, we are currently running on free-tier services and testing environments that are not reliable for paying customers. This investment creates a stable, professional infrastructure that customers can depend on — paid cloud hosting, enterprise communications, and production-grade AI services.

In short: We need to move from "it works" to "it works reliably, every time."

The Offer

Term	Detail
Investment	R30,000
Instrument	SAFE (post-money)
Valuation Cap	R2,000,000
Conversion	At next priced equity round

Your R30,000 converts to equity at the lower of R2M cap or the next round valuation.

The Ask

R30,000 for 90 days to land our first paying customer.

The product is built. We need reliable infrastructure and runway to close.

Allocation

Category	Amount	%
Customer Acquisition	R10,500	35%
Infrastructure (Vultr)	R6,000	20%
Operations	R6,500	21.5%
Communications	R2,550	8.5%
AI Services	R2,400	8%
Development Tools	R2,050	7%
Total	R30,000	100%

Timeline

Month	Spend	Milestone
February	R12,000	Launch ads, generate leads
March	R11,500	First paying customer
April	R6,500	Support, optimize

Why This Works

- **Product is done** — Core ERP modules built (Accounting, Inventory, Sales, Purchases, HR, Manufacturing, Cash Management, Compliance)
- **Infrastructure is cheap** — Vultr costs 70% less than AWS
- **Market is ready** — 95,000 SMEs need affordable ERP
- **Timeline is short** — First customer in 60 days
- **Amount is small** — R10,000/month burn rate

Success Metrics

Target	Measure
March 31	First paying customer (R1,500 MRR)
April 30	2-3 customers (R3,000-R4,500 MRR)
Break-even	10 customers = R15,000 MRR
