

SiyaBusa ERP

INVESTOR PITCH DECK

Investor & Partner Documentation

Masaphokati Technologies (Pty) Ltd

Document Version: 1.0

Effective Date: January 2026

Department: Executive

Classification: Confidential

WE RULE. WE GOVERN. WE EMPOWER.

INVESTMENT OPPORTUNITY OVERVIEW

This document outlines the investment opportunity for SiyaBusa ERP, detailing the market gap, our solution, financial projections, and the path to JSE AltX listing.

SiyaBusa ERP - Investor Pitch Deck

SLIDE 1: COVER

SiyaBusa ERP

Enterprise Software for Growing African Businesses

Tagline: 10x Better Value | 10x Faster | 100% Cloud-Native

Seeking: R200,000 Bridge Round (4-Month Runway)

Contact:

[Your Name] - Founder & CEO

founder@siyabusa.co.za

[Your LinkedIn]

Date: January 29, 2026

SLIDE 2: THE PROBLEM

African Mid-Market Companies Face an Impossible Choice

Option 1: Enterprise Giants

- SAP, Oracle, Microsoft Dynamics
- R5M-R50M implementation costs
- 18-24 month deployments
- Complexity overkill for most businesses

Option 2: Basic Tools

- QuickBooks, Xero, Sage One
- Accounting only - no ERP features
- Limited scalability
- Multiple disconnected tools needed

Option 3: Legacy Systems

- Sage Desktop, Pastel
- On-premise software
- Limited cloud capabilities
- High maintenance costs

The Result?

African SMEs pay 10-50x more than global competitors for incomplete, inflexible systems

SLIDE 3: THE SOLUTION

Introducing SiyaBusa ERP

What We Do:

Production-ready, cloud-native ERP built specifically for South African businesses.

Key Differentiators:

Comprehensive: 25+ integrated modules covering all business operations

Industry-Specific: Healthcare, Mining, Construction, Property, Agriculture

Compliance Built-In: SARS, VAT, PAYE, B-BBEE, POPIA - ready from day one

AI-Powered: Natural language queries, intelligent automation

Fast Deployment: 2-4 weeks, not 18 months

Fair Pricing: R980/user/month vs R2,500-R5,000/user (SAP)

Technology:

Modern, battle-tested stack (Node.js, React, PostgreSQL, AWS)

SLIDE 4: PRODUCT DEMO

25+ Modules | Single Platform | Zero Integration Headaches

Financial Management

- General Ledger, AP/AR
- Cash Management
- Asset Management (IAS 16)
- Budget & Forecasting

Operations

- Inventory & Warehousing

- Purchase Management
- Sales & CRM
- Manufacturing (BOM, Work Orders)

People & Projects

- HR & Payroll
- Time Tracking
- Project Management
- Practice Management

Industry Solutions

- Healthcare (Patient mgmt, Medical inventory)
- Mining (Mineral tracking, Safety compliance)
- Construction (Project costing, Progress billing)
- Property (Leases, Tenant billing)
- Agriculture (Crop mgmt, Farm operations)

Platform Features

- Multi-tenant architecture
- AI Assistant & Agents
- Real-time analytics
- Mobile-responsive
- API access (400+ endpoints)

SLIDE 5: MARKET OPPORTUNITY

Large, Growing, Underserved Market

Total Addressable Market

- South African ERP market: **\$450M/year**
- Growing at: **8.2% CAGR**
- Mid-market segment: **\$180M** (our target)

Target Customer Profile

- Company size: 50-500 employees
- Revenue: R10M-R500M annually
- Industries: Healthcare, Mining, Construction, Property, Agriculture, Services

- Pain: Outgrowing spreadsheets, need integrated system
- Budget: R300K-R1.5M for ERP implementation

Market Dynamics

- Digital transformation accelerating post-COVID
- Cloud adoption increasing in South Africa
- SARS e-filing mandates driving compliance software need
- Global ERP players focused on enterprise (R1B+ companies)
- Local players stuck with legacy desktop software

Our Wedge: The "Goldilocks Market"

Too sophisticated for QuickBooks, too small for SAP

SLIDE 6: BUSINESS MODEL

Per-User SaaS Pricing + Healthy Margins

Core Pricing: R980 per user per month

Every user pays — no free tier. Each user covers their cost + provides margin.

Tier	Per User	Min Users	Min Monthly
Starter	R980	5	R4,900
Professional	R931 (5% off)	10	R9,310
Enterprise	R882 (10% off)	25	R22,050

Implementation Services (One-Time)

- Starter: R7,500 (data migration, 4hr training)
- Professional: R25,000 (full onboarding, 16hr training)
- Enterprise: R75,000+ (custom implementation)

Unit Economics (Per User)

- Cost to serve: **R380/user** (AWS, support, dev)
- Margin: **R600/user (61%)**
- Average customer: **10 users = R9,800/month**
- LTV: **R235K** (2-year retention)
- CAC: **R12K** (via direct sales)

- LTV/CAC ratio: **20:1**
-

SLIDE 7: TRACTION & ROADMAP

Production-Ready | First Customer Target: May 2026

Current Status (January 2026)

- **Product:** 100% complete, production-deployed
- **Infrastructure:** AWS Cape Town (EC2, RDS, S3)
- **Codebase:** 400+ REST APIs, 25+ modules, tested
- **Documentation:** Complete technical & user docs
- **Status:** Pre-revenue, ready for launch

4-Month Plan (Feb-May 2026)

Feb: Marketing Launch

- LinkedIn + Google Ads campaigns live
- Landing page optimized
- 50+ leads captured

Mar: Beta Testing

- 5 beta partners actively using system
- 100+ qualified leads in pipeline
- First demos conducted

Apr: Sales Push

- 30+ demo meetings
- 15+ trials started
- 5+ proposals sent

May: First Customer

- **1-3 paying customers signed**
 - **R7,840+ MRR** (8 users @ R980)
 - Case study in production
-

SLIDE 8: COMPETITIVE LANDSCAPE

Positioned Between Giants and Basic Tools

	SiyaBusa	SAP/Oracle	Sage	Odoo	QuickBooks
Target Market	Mid-market SMEs	Enterprise (R1B+)	SME/Mid	SME/Mid	Micro/Small
Per User/Month	R980	R2,500-R5,000	R1,000-R2,000	R500-R1,000	N/A
Implementation	R7,500-R75K	R500K-R2M	R100K-R500K	R50K-R200K	R0-R5K
Deploy Time	2-4 weeks	6-18 months	3 months	2 months	1 day
Modules	25+	100+	15+	30+	5 (accounting)
SA Compliance	Built-in	Custom	Limited	Custom	Basic
Cloud	Native	Hybrid	Desktop	Yes	Yes
AI Features	Yes	Premium \$	No	No	No

Our Advantages:

1. **Right-sized:** Not overkill (SAP), not limited (QuickBooks)
2. **SA-first:** Compliance built-in, not bolt-on
3. **Modern tech:** React UX, AI features, API-first
4. **Fast:** 2-week deployment vs months/years
5. **Cost:** 1/10th the price of comparable solutions

SLIDE 9: GO-TO-MARKET STRATEGY

Land & Expand Through Industry Verticals

Phase 1 (Months 1-6): Beta Partners

- Target: 10 flagship companies (2 per industry)
- Offer: Free/discounted in exchange for feedback
- Goal: Case studies, testimonials, product-market fit

Phase 2 (Months 6-12): Direct Sales

- Industry associations (healthcare, mining, construction)
- LinkedIn outreach (100 messages/week)
- Monthly demo webinars

- Trade shows (2 per quarter)
- Content marketing (weekly blog, case studies)

Phase 3 (Months 12-24): Channel Partners

- Accounting firms (resell to clients)
- Industry consultants (referral fees)
- System integrators (implementation partners)
- Target: 50% of deals through partners by Year 2

Customer Acquisition Budget (18 months): R1.5M

- Digital marketing: R600K
- Events/trade shows: R400K
- Content creation: R200K
- Partner enablement: R300K

SLIDE 10: FINANCIAL PROJECTIONS

Conservative Growth Path (R980/User)

Date	Customers	Avg Users	MRR	ARR Run Rate
May 2026	1	8	R7,840	R94K
Aug 2026	3	10	R29,400	R353K
Dec 2026	8	10	R78,400	R941K
Jun 2027	20	12	R235,200	R2.8M
Dec 2027	40	15	R588,000	R7.1M

Key Metrics

- Monthly burn rate: ~R41,400
- Break-even: **5-6 customers** (@ 8 users each)
- Target break-even: **Q3 2026 (September)**
- CAC payback: 3-4 months
- Gross margin: 61% per user

Why This Works

- At R980/user, break-even requires only 5-6 small customers

- Each user covers their R380 cost + R600 margin
 - No subsidizing free users — sustainable from day one
-

SLIDE 11: THE TEAM

Builder + Future Leaders

Founder & CEO: [Your Name]

- Full-stack developer with ERP domain expertise
- Built entire system: 400+ APIs, 25+ modules, production deployment
- 9 months from concept to production-ready
- Vision: Democratize enterprise software for African businesses

Immediate Hires (Post-Funding):

CTO/Tech Lead (Month 1)

- Scale technical infrastructure
- Lead engineering as team grows
- Security & compliance oversight

Sales Manager (Month 1)

- Execute go-to-market strategy
- Build sales pipeline & sign customers
- Manage beta partner relationships

Customer Success Lead (Month 3)

- Onboarding & training
- Customer retention & expansion
- Product feedback loop

Advisory Board (Assembling):

- ERP industry veteran
 - African tech investor
 - SA regulatory/compliance expert
-

SLIDE 12: USE OF FUNDS

R200,000 Bridge Round | 4-Month Runway

Development & Operations: R82,500 (41%)

- Technical oversight & code review: R60,000
- Mobile & internet: R6,000
- Client meetings & demos: R16,500

Marketing: R35,500 (18%)

- LinkedIn Ads: R14,000
- Google Ads: R9,500
- Content/Video: R7,500
- Events/PR: R3,000
- Referrals: R1,500

Infrastructure: R27,500 (14%)

- AWS hosting (ECS, RDS, S3): R25,500
- Domain, email, tools: R2,000

Customer Operations: R19,500 (10%)

- Onboarding & training: R12,000
- Demo environments: R4,000
- Customer success tools: R3,500

Legal & Compliance: R14,000 (7%)

- Terms of service, contracts: R7,500
- Security audit: R2,500
- Insurance (PI, cyber): R4,000

Business Setup: R9,500 (5%)

- Payment gateway (Payfast/Yoco): R4,000
- First hire preparation: R5,500

Contingency: R11,500 (6%)

- ~10% monthly buffer

Milestones Achieved with Funding:

- **First paying customer by May 2026**

- R7,840+ MRR (8 users @ R980)
 - Break-even path validated
 - Ready for seed round (R2M-R5M)
-

SLIDE 13: INVESTMENT TERMS

R200,000 Bridge Round | Flexible Terms

Amount: R200,000 (~\$11,000 USD)

Option A: Convertible Note

- Term: 12 months
- Interest: 0%
- Conversion: 20% discount to seed round valuation
- Automatic conversion at qualified financing (>R2M)

Option B: SAFE Note

- Valuation cap: R5,000,000
- Discount: 20% to next round
- Pro-rata rights: Yes
- MFN clause: Yes

Option C: Direct Equity

- Amount: R200,000
- Equity: 4%
- Pre-money: R5,000,000

What Investors Get:

- Weekly progress updates
 - Early access to product
 - Pro-rata rights for seed round
 - Proof of market before larger commitment
-

SLIDE 14: EXIT OPPORTUNITIES

Multiple Paths to Liquidity

Timeline: 3-7 years

Acquisition Scenarios (Most Likely)

Global ERP Expansion (Year 3-5)

- **Acquirers:** SAP, Oracle, Microsoft, Sage, Infor
- **Logic:** Expand African footprint without building from scratch
- **Valuation:** 5-8x ARR (standard for B2B SaaS)

SA Tech Consolidation (Year 4-6)

- **Acquirers:** Naspers, Capitec, TymeBank, Discovery
- **Logic:** Add ERP capabilities to existing offerings
- **Valuation:** 4-6x ARR

Private Equity (Year 5-7)

- **Acquirers:** African tech-focused PE funds
- **Logic:** Roll-up strategy, build African software giant
- **Valuation:** 6-10x EBITDA

IPO on JSE (Year 7-10)

- If scaled to R100M+ ARR
- Precedent: Datatec, EOH, Adapt IT (before acquisition)

Comparable African Tech Exits:

- **Yoco:** \$83M raised (PayTech)
- **JUMO:** \$120M raised (FinTech)
- **Aerobotics:** \$17M raised (AgriTech)
- **SweepSouth:** \$7M raised (MarketPlace)

SLIDE 15: WHY NOW?

Perfect Storm of Opportunity

Market Drivers:

1. **Digital Transformation:** COVID accelerated cloud adoption by 5+ years
2. **Compliance Mandates:** SARS e-filing, POPIA driving software adoption
3. **SME Growth:** SA mid-market growing despite macro headwinds
4. **Global Neglect:** Big ERP players focused on enterprise, ignoring SMEs
5. **Tech Maturity:** Modern stack (Node, React, AWS) now proven for ERPs

Competitive Timing:

- Sage stuck with legacy desktop
- Odoo limited SA presence
- SAP/Oracle too expensive for mid-market
- QuickBooks/Xero no ERP features
- **Gap exists - we fill it**

Team Readiness:

- Founder built production system in 9 months
 - No MVP - actual production-ready product
 - AWS deployed, customers can start tomorrow
 - Not "build and hope" - it's "sell what exists"
-

SLIDE 16: RISKS & MITIGATION

What Could Go Wrong? (And Our Plans)**Risk 1: Customer Acquisition Cost Too High**

- Mitigation: Niche industry focus, beta partners = case studies, channel partners lower CAC

Risk 2: Competition from Global Players

- Mitigation: We're faster, localized, 1/10th price. Hard for them to compete without cannibalizing.

Risk 3: Technical Complexity/Scalability

- Mitigation: Modern stack, battle-tested technologies, Docker/AWS proven scalable

Risk 4: Regulatory Changes (SARS, Tax Law)

- Mitigation: Modular compliance system, easy to update, advisory board with compliance experts

Risk 5: Key Person Risk (Founder)

- Mitigation: CTO hire (Month 1), documentation complete, code well-structured

Risk 6: Economic Downturn in SA

- Mitigation: ERP is critical infra (customers don't cut), can expand to Nigeria/Kenya
-

SLIDE 17: TRACTION METRICS (Updated Monthly)

Current Status (January 29, 2026)

Product

- Production-ready (AWS deployed)
- 400+ REST API endpoints
- 25+ modules implemented
- Full technical documentation
- Security & authentication complete

Business

- Pipeline: Building (marketing launching Feb)
- Beta partners: In recruitment
- Paying customers: Pre-revenue
- MRR: R0 (target: first customer May 2026)

Updates (Fill in as you progress):

- Week of Jan 2: Raised seed round
 - Week of Jan 9: First 5 beta partners signed
 - Week of Jan 16: First customer live
 - Week of Jan 23: Hit R10K MRR
 - ...etc
-

SLIDE 18: CALL TO ACTION

Join Us in Transforming African Business Software

What We're Building:

An African ERP company serving 1,000+ businesses by 2030

Why This Matters:

- African SMEs deserve world-class software at fair prices
- Technology should enable growth, not hold businesses back
- Local solutions for local challenges

What We Need:

- R200,000 bridge capital (4-month runway)

- Strategic advisors with ERP/Africa expertise
- Intros to beta partners & early customers

What You Get:

- Early entry at R5M valuation cap
- Proof of market before larger commitment
- Weekly updates on progress
- Pro-rata rights for seed round

Next Steps:

1. **Review:** Due diligence materials
 2. **Demo:** Live product walkthrough
 3. **Meet:** Coffee/call with founder
 4. **Decide:** 2-week close timeline
-

SLIDE 19: THANK YOU

Let's Build the Future of African Business Software Together
