WE RULE. WE GOVERN. WE EMPOWER.

PRICING MODEL & MARKET POSITIONING

Comprehensive pricing strategy document outlining our "Everything Included" approach, competitive positioning in the ignored middle market, and detailed plan breakdowns.

Pricing Strategy

Market Positioning

We serve the **IGNORED** middle market.

Market Segment	Who Serves Them	Problem
Micro/Small	Xero, QuickBooks (R500-R1,500)	Basic accounting only, no operations
Mid-Market	NOBODY	Too big for Xero, priced out of SAP
Enterprise	SAP, Oracle (R100K-R500K)	Expensive, complex, slow to implement

60,000+ South African businesses (R10M-R500M revenue) have NO good ERP option.

We don't compete with Xero. We don't compete with SAP. We fill the gap.

Pricing Philosophy

VALUE LEADERSHIP + INDUSTRY FOCUS

- **R980 per user per month** — simple, predictable pricing
- **Industry-tailored modules** — customers get what's relevant to their business
