The Company

What We Do

Masaphokati Technologies develops and operates **SiyaBusa ERP**, a comprehensive cloud-based Enterprise Resource Planning platform designed specifically for African mid-market businesses.

Core Capabilities

Capability	Description
Full ERP Suite	25+ integrated modules covering all business operations
Native Compliance	Built-in South African tax, labor, and regulatory compliance
AI-Powered	9 specialized AI assistants for intelligent automation
Cloud-Native	Modern SaaS architecture deployed on AWS
Multi-Tenant	Secure, isolated environments for each customer
Industry Verticals	Specialized solutions for 6 key industries

Our Product: SiyaBusa ERP

Module Overview

Category	Modules
Finance	General Ledger, Cash Management, Asset Management, Multi-Entity Consolidation, Treasury
Operations	Sales & CRM, Purchase Management, Inventory, Warehouse Management, Manufacturing
Human Resources	Payroll (SARS-compliant), Leave Management, Recruitment, Performance Management
Compliance	SARS Sentinel, Audit Ready, POPIA Compliance, B-BBEE Tracking
Industry	Healthcare, Mining, Construction, Property Management, Agriculture, Professional Services
Platform	AI Assistant, Communications Hub, Document Management, Analytics & Reporting

Technology Stack

Layer	Technology
Frontend	React 18, TypeScript, Vite
Backend	Node.js, Express, TypeScript
Database	PostgreSQL (AWS RDS)
Cache	Redis
Infrastructure	AWS (EC2, RDS, S3, CloudFront)
AI	OpenAI GPT-4, Multiple LLM integrations

Key Differentiators

1. Native South African Compliance

Unlike global ERP vendors that require expensive localization projects (R500K-R2M), SiyaBusa has compliance built in from day one:

- PAYE, UIF, SDL tax calculations
- SARS submission file generation

- BCEA leave entitlements
- B-BBEE scorecard tracking
- POPIA data protection

2. Best Value Pricing

We are NOT the cheapest — we deliver MORE than basic accounting but cost far LESS than enterprise ERP.

Market Tier	Monthly Cost	What You Get
Basic Accounting	R500-R1,500	Accounting only
SiyaBusa	R10K-R55K	Full ERP + compliance
Enterprise ERP	R50K-R200K	Same features, 3-5x price

3. AI-Powered Intelligence

9 specialized AI assistants provide:

- Natural language queries against business data
- Automated insights and recommendations
- Intelligent process automation
- 24/7 assistance

4. Modern Architecture

- Cloud-native SaaS (no on-premise infrastructure)
- Real-time data and dashboards
- Mobile-responsive design
- API-first for integrations

Market Opportunity

The Problem We Solve

60,000+ South African mid-market businesses (R10M-R500M revenue) are trapped between:

Option	Problem
Enterprise ERP (SAP, Oracle)	Too expensive (R50K-R200K/month) + R500K-R2M localization
Basic Accounting (Xero, QuickBooks)	Missing manufacturing, warehouse, HR, compliance

Result: Businesses use disconnected systems, creating inefficiency and compliance risk.
