Higher churn than expected	Lower LTV, more acquisition needed	Invest in customer success early
Price pressure	Lower ARPA	Value-based selling, feature differentiation
Longer sales cycles	Higher CAC	Focus on ready-to-buy customers

Mitigation Strategy

1. **Monthly financial reviews** with investors
 2. **Milestone-based hiring** - only hire when metrics justify
 3. **Conservative cash management** - 6-month runway minimum
 4. **Flexible cost structure** - contractors before FTEs where possible
