WE RULE. WE GOVERN. WE EMPOWER.

PRICING MODEL & MARKET POSITIONING

Comprehensive pricing strategy document outlining our "Everything Included" approach, competitive positioning in the ignored middle market, and detailed plan breakdowns.

Pricing Strategy

Market Positioning

We serve the **IGNORED** middle market.

Market Segment	Who Serves Them	Problem
Micro/Small	Xero, QuickBooks (R500-R1,500)	Basic accounting only, no operations
Mid-Market	NOBODY	Too big for Xero, priced out of SAP
Enterprise	SAP, Oracle (R100K-R500K)	Expensive, complex, slow to implement

60,000+ South African businesses (R10M-R500M revenue) have NO good ERP option.

We don't compete with Xero. We don't compete with SAP. We fill the gap.

Pricing Philosophy

RELIABILITY + VALUE + EVERYTHING INCLUDED

Why This Pricing Works

For Customers:

1. **No surprises** — Everything they need is included
2. **Clear value** — They see what SAP charges extra for
3. **Reliability** — Enterprise features at mid-market pricing
4. **Growth path** — Easy to upgrade as they grow

For SiyaBusa:

1. **Higher ARPA** — Bundled value = higher revenue per customer
2. **Stickiness** — Customers use ALL features, harder to leave
3. **Differentiation** — "Everything included" is unique in market
4. **Margins** — Software scales, features cost nothing extra to deliver

Summary
