The total size of the farm at Tikhuba is as follows:

- Field 1 = 6.2 hectares, 1,128.94M perimeter
- Field 2 = 3.4 hectares, 1,001.5M perimeter
- Field 3 = 5.5 hectares, 898.9M perimeter
- Field 4 = 5.7 hectares, 989.6M perimeter

Which totals about 20.8 hectares, 4,018.94M perimeter

The total size of the Gamula farm is 81.3 hectares, 4,968.11M perimeter

Though we shall have to fence the whole area at the beginning, we shall focus on 10 hectares at Tikhuba for coffee 30 hectares in Gamula for Coffee and 20 hectares in Mpolonjeni (HQM) for coffee. The rest of the fenced land will be used for the other agricultural projects.

Thus, we need a total of 240,000 coffee seedlings, to be distributed in the following manner with 4,000 coffee seedlings per hectare.

- Tikhuba = 40,000 coffee seedlings
- Gamula = 120,000 coffee seedlings
- Mpolonjeni = 80,000 coffee seedlings

Which totals 240,000 coffee seedlings

Apart from the coffee seedlings we shall require shade plants seedlings, banana and macadamia seedlings, a total of 24,000 seedlings to be distributed in the following manner :

- Tikhuba = 2,000 bananas and 2,000 macadamia
- Gamula = 6,000 bananas and 6,000 macadamia
- Mpolonjeni = 4,000 bananas and 4,000 macadamia

The costs associated with the seedlings is as follows:

<i>Name of Item</i>		<i>Qty</i>	<i>Unit price</i>	<i>Total Amount</i>
1	Coffee seedlings	240,000	30-00	7,200,000-00
2	Banana seedlings	12,000	60-00	600,000-00
3	Macadamia seedlings	12,000	60-00	900,000-00
4				
			Total	8,700,000-00

Please look into this info and we will have to engage on it soonest.

Kind regards
