Executive Summary

This business plan presents the establishment of the **National Development Bank of South Sudan (NDB-SS)**, a specialized development finance institution designed to mobilize investment capital for strategic national infrastructure and economic development projects.

Modeled after successful development finance institutions such as the **Development Bank of Southern Africa (DBSA)**, **African Development Bank (AfDB)**, and **Qatar Development Bank**, NDB-SS will serve as the primary vehicle for channeling both commercial investment and donor funding into transformative projects across South Sudan and the broader African region.

Seed Capital Request

We are seeking USD 5,000,000 (Five Million US Dollars) in seed capital to establish and operationalize the National Development Bank of South Sudan. This seed investment will fund:

- Legal establishment and regulatory licensing
- Initial operations and working capital (18 months lean)
- Essential technology infrastructure and banking systems
- Senior management team recruitment
- First project pipeline development

This seed capital will enable NDB-SS to mobilize USD 1.2 Billion over 3 years (USD 400 Million annually) through deal origination, earning approximately **USD 20 Million in commission revenue per year**.

Investment Highlights

Metric	Value
Seed Capital Required	USD 5,000,000
3-Year Capital Mobilization Target	USD 1,200,000,000
Annual Capital Mobilization	USD 400,000,000
Primary Sectors	Roads, Mining, Agro-processing
Geographic Focus	South Sudan, East Africa

Metric	Value
Revenue Model	Commission-based (5%) + Transaction Fees
Projected Year 1 Revenue	USD 24,000,000
Projected Year 1 Net Profit	USD 18,000,000
Year 1 Return on Seed Investment	360%

Strategic Value Proposition

- 1. **Critical Infrastructure Gap:** South Sudan requires an estimated \$50+ billion in infrastructure investment
- 2. **Development Finance Deficit:** No dedicated national development bank currently exists
- 3. **Donor Coordination:** Fragmented humanitarian funding needs unified channel
- 4. **Economic Diversification:** Oil-dependent economy needs infrastructure for growth
- 5. **Regional Integration:** East African connectivity requires coordinated investment

1. Institutional Overview

1.1 Vision

To be the premier development finance institution driving sustainable economic transformation in South Sudan and contributing to Africa's infrastructure development agenda.

1.2 Mission

To mobilize, structure, and deploy development capital for strategic national projects that create jobs, build infrastructure, and foster sustainable economic growth while ensuring financial viability and accountability.

1.3 Core Values

Value	Description
Integrity	Transparent governance and ethical operations
Impact	Measurable developmental outcomes
Sustainability	Financially viable projects with long-term benefits
Partnership	Collaborative approach with governments, donors, and investors
Innovation	Creative financing solutions for complex challenges

1.4 Legal Structure

Element	Specification
Entity Type	Development Finance Institution (DFI)
Jurisdiction	Republic of South Sudan
Regulatory Framework	Central Bank of South Sudan + Special Charter

Element	Specification
Ownership Structure	Government + Strategic Partners + Private Investors
Governance	Independent Board with international representation

2. Market Opportunity

2.1 South Sudan Development Context

South Sudan, the world's youngest nation (independence 2011), faces enormous development challenges but also unprecedented opportunities for transformative investment.

Key Economic Indicators:

Indicator	Value
Population	~12 million
GDP	~\$4.5 billion
GDP per Capita	~\$375
Economic Dependence	95%+ on oil exports
Infrastructure Gap	\$50+ billion estimated
Road Network	<200km paved (entire country)
Electrification Rate	<5%
Banking Penetration	<10%

2.2 Infrastructure Deficit

Roads & Transport: - Less than 200km of paved roads in a country larger than France - No functioning railway network - Limited air transport infrastructure - River transport underutilized despite extensive Nile system

Energy: - Less than 5% of population has electricity access - Massive hydropower potential (Nile) untapped - Solar potential among highest in Africa

Agriculture: - Only 4% of arable land currently cultivated - Massive irrigation potential from Nile basin - Food imports despite agricultural potential

2.3 Funding Landscape

Current Development Finance Sources:

Source	Annual Flow (Est.)	Limitations
Humanitarian Aid	\$1.5-2 billion	Short-term, fragmented
Bilateral Aid	\$500 million	Tied to donor priorities
Multilateral (World Bank, AfDB)	\$300 million	Slow disbursement
Private Investment	<\$100 million	High risk perception
Oil Revenue (Government)	Variable	Volatile, misallocated

Gap Analysis: - **Required Annual Investment:** \$5-10 billion for meaningful development - **Current Investment:** <\$3 billion (mostly humanitarian) - **Funding Gap:** \$2-7 billion annually - **Development Finance Gap:** No dedicated DFI to structure bankable projects

2.4 Regional Opportunity

East African Community Integration: - South Sudan seeking EAC membership - Regional infrastructure connectivity needed - Cross-border trade potential with Uganda, Kenya, Ethiopia, DRC

Pan-African Development Agenda: - African Continental Free Trade Area (AfCFTA) - Programme for Infrastructure Development in Africa (PIDA) - Agenda 2063

3. Business Model

3.1 Dual-Track Approach

NDB-SS operates two complementary business streams:

Track A: Commercial Development Finance

- Source investment funds for viable, revenue-generating projects
- Structure deals to ensure repayment
- Focus: Infrastructure with commercial returns (toll roads, power, mining)

Track B: Donor Fund Coordination

- Attract and manage donor/humanitarian funding
- Channel to development-aligned humanitarian projects
- Focus: Social infrastructure (schools, hospitals, water systems)

3.2 Revenue Model

Primary Revenue Streams:

Revenue Source	Description	Rate/Fee
Deal Origination Commission	Fee for connecting funders to bankable projects	5% of deal value
Fund Management Fee	Annual fee for managing deployed capital	1-2% AUM
Transaction/Paymaster Fee	Fee for disbursement management	0.5-1% of disbursements
Advisory Services	Project preparation, feasibility studies	Project-based
Success Fees	Bonus on project completion/ milestones	Negotiated

Example Revenue Calculation (Year 1):

Activity	Volume	Rate	Revenue
Deals Closed	\$400 million	5%	\$20,000,000
Paymaster Services	\$300 million	0.75%	\$2,250,000
Advisory/Other	Various	-	\$2,000,000
Year 1 Total Revenue			\$24,250,000

3.3 Operational Model (Visualized)

Model 1: Deal Connector

Model 2: Paymaster

Model 3: Co-Investment

4. Strategic Sectors

4.1 Priority Sector: Roads & Transport Infrastructure

Rationale: - Most critical infrastructure gap - Enables all other economic activity - High visibility, nation-building impact - Clear revenue models (tolls, fuel levies) - Strategic trade corridor connecting South Sudan to Uganda and East African markets

Priority Project: Juba-Nimule Highway

Project	Est. Cost	Priority	Status
Juba-Nimule Highway (Uganda border)	\$400M	Critical	Pipeline

Project Overview: The Juba-Nimule Highway is a 192km road connecting South Sudan's capital to the Uganda border, representing the country's most vital trade and transport corridor. This project will: - Reduce travel time from 8+ hours to under 3 hours - Enable efficient import/export of goods - Connect to the Northern Corridor (Mombasa-Kampala) - Generate toll revenue for sustainability

| Roads Subtotal | \$400 million | |

4.2 Priority Sector: Mining & Natural Resources

Rationale: - Vast untapped gold deposits in Eastern Equatoria - Diversification from oil dependence critical - High-value export potential with established global markets - Attracts serious international mining investors

Priority Project: Gold Mining Development

Project	Est. Cost	Priority	Status
Gold Mining Development (Kapoeta Region)	\$300M	High	Pipeline

Project Overview: The Kapoeta gold mining region in Eastern Equatoria holds significant untapped gold reserves. This project encompasses: - Exploration and geological surveys - Mining infrastructure development - Processing facilities - Environmental compliance systems - Community development programs

Estimated gold reserves and favorable geology make this a compelling investment opportunity for mining companies and development financiers.

| **Mining Subtotal** | **\$300 million** | |

4.3 Priority Sector: Agro-processing

Rationale: - Value addition to agricultural produce critical for economic development - Reduces post-harvest losses (currently 40%+) - Creates employment in processing and packaging - Enables export of processed goods to regional markets - Foundation for food security and import substitution

Priority Project: Agro-processing Facilities

Project	Est. Cost	Priority	Status
Agro-processing Facilities	\$200M	High	Pipeline

Project Overview: Establishment of modern agro-processing facilities to add value to South Sudan's agricultural output: - Grain milling and flour production - Oilseed processing (sesame, groundnuts) - Fruit and vegetable processing - Meat processing and cold chain - Packaging and quality control facilities

These facilities will be strategically located near agricultural production zones and transport corridors.

| **Agro-processing Subtotal** | **\$200 million** | |

4.4 Three-Year Pipeline Summary

Conservative Mobilization Target: \$1.2 Billion over 3 Years

Sector	3-Year Target	Year 1	Year 2	Year 3
Roads (Juba-Nimule)	\$400M	\$150M	\$150M	\$100M
Mining (Gold)	\$300M	\$100M	\$100M	\$100M
Agro-processing	\$200M	\$50M	\$75M	\$75M
Other (Energy, Social)	\$300M	\$100M	\$100M	\$100M
Total	\$1.2B	\$400M	\$425M	\$375M

Annual Commission Revenue (5%):

Year	Capital Mobilized	Commission (5%)
Year 1	\$400 million	\$20 million

Year	Capital Mobilized	Commission (5%)
Year 2	\$425 million	\$21.25 million
Year 3	\$375 million	\$18.75 million
3-Year Total	\$1.2 billion	\$60 million

5. Funding Sources Strategy

5.1 Target Funder Categories

Tier 1: Multilateral Development Finance Institutions

Institution	Potential	Focus Areas
African Development Bank (AfDB)	\$300-500M	Infrastructure, Regional
World Bank / IFC	\$200-400M	Multi-sector
Islamic Development Bank (IsDB)	\$200-300M	Infrastructure, Social
Arab Fund for Economic Development	\$100-200M	Infrastructure
OPEC Fund (OFID)	\$100-150M	Energy, Agriculture

Tier 2: Bilateral Development Agencies

Country/Agency	Potential	Focus Areas
China (Exim Bank, CDB)	\$500M+	Infrastructure
Qatar Fund for Development	\$200-300M	Multi-sector
UAE (Abu Dhabi Fund)	\$150-200M	Infrastructure
Kuwait Fund	\$100-150M	Infrastructure
Saudi Fund for Development	\$100-150M	Social, Infrastructure
Japan (JICA)	\$100-200M	Infrastructure
Germany (KfW)	\$50-100M	Energy, SME
USA (DFC)	\$100-200M	Private sector

Tier 3: Private Investors & Funds

Category	Potential	Approach
Infrastructure Funds	\$200-400M	Co-investment
Mining Companies	\$300-500M	Project finance
Sovereign Wealth Funds	\$200-300M	Long-term debt
Impact Investors	\$50-100M	Blended finance

Tier 4: Humanitarian & Donor Funding

Source	Potential	Focus
UN Agencies	\$200-300M	Development-humanitarian
EU	\$100-200M	Governance, social
USAID	\$100-150M	Food security, health
UK FCDO	\$50-100M	Multi-sector

5.2 Funding Mobilization Strategy

Phase 1 (Year 1): Foundation Building - Establish relationships with major DFIs - Present pipeline of 3 priority bankable projects - Secure anchor commitments (\$100-150M) - Target: \$400 million mobilized

Phase 2 (Year 2): Consolidation - Close additional transactions - Build track record with successful disbursements - Expand funder base - Target: \$425 million mobilized (cumulative \$825M)

Phase 3 (Year 3): Scale-Up - Proven track record attracts larger commitments - Regional expansion consideration - Target: \$375 million mobilized (cumulative \$1.2B) - Evaluate commercial banking wing feasibility

6. Organizational Structure

6.1 Governance Framework

6.2 Key Departments

Development Finance Division - Deal origination and structuring - Funder relationship management - Project pipeline development - Sector specialists (Roads, Mining, Agriculture)

Operations & Projects Division - Project monitoring and supervision - Disbursement management (Paymaster function) - Technical assistance coordination - Impact measurement

Risk & Compliance Division - Credit risk assessment - AML/KYC compliance - Environmental & Social risk - Portfolio monitoring

Finance Division - Treasury management - Financial reporting - Budgeting and planning - Investor relations

Commercial Banking Division (Year 2) - Corporate banking services - Trade finance - Foreign exchange - Treasury products

6.3 Staffing Plan (Lean Operations)

Phase	Headcount	Key Positions
Setup (Months 1-6)	8	MD/CEO, CFO, Head of Development Finance, Core support
Year 1	15	Add Deal Origination, Operations, Compliance officers
Year 2	30	Scale based on deal flow
Year 3+	45	Gradual expansion tied to revenue

Lean Startup Approach: - Outsource non-core functions initially (legal, IT support, accounting) - Use consultants for specialized deal structuring - Focus hiring on revenue-generating roles - Build capacity as deal flow grows

7. Financial Projections

7.1 Five-Year Revenue Projection (Conservative)

Revenue Stream	Year 1	Year 2	Year 3	Year 4	Year 5
Deal Commission (5%)	\$20M	\$21.25M	\$18.75M	\$30M	\$50M
Fund Management Fees	\$1M	\$3M	\$6M	\$10M	\$15M
Paymaster/Transaction	\$2.25M	\$3M	\$4M	\$6M	\$8M
Advisory Services	\$1M	\$2M	\$3M	\$4M	\$5M
Commercial Banking	-	-	\$2M	\$5M	\$10M
Total Revenue	\$24.25M	\$29.25M	\$33.75M	\$55M	\$88M

Note: Years 4-5 assume successful track record enables larger deal flow beyond initial \$1.2B target

5-Year Revenue Projection

Year 1		\$24M
Year 2		\$29M
Year 3		\$34M
Year 4		\$55M
Year 5		\$88M

7.2 Capital Deployment Trajectory (Conservative)

Metric	Year 1	Year 2	Year 3	Year 4	Year 5
Deals Closed	\$400M	\$425M	\$375M	\$600M	\$1B
Cumulative Deployment	\$400M	\$825M	\$1.2B	\$1.8B	\$2.8B
Active Projects	3	5	6	10	15
Jobs Created	2,000	5,000	8,000	15,000	25,000

Note: Years 4-5 projections assume successful execution of initial 3-year plan

7.3 Operating Expense Projection (Lean Operations)

Category	Year 1	Year 2	Year 3	Year 4	Year 5
Personnel	\$1.8M	\$3M	\$4.5M	\$7M	\$10M
Operations	\$0.6M	\$1M	\$1.5M	\$2.5M	\$4M
Technology	\$0.4M	\$0.6M	\$0.8M	\$1.2M	\$2M
Marketing/BD	\$0.4M	\$0.6M	\$1M	\$1.5M	\$2M
Professional Fees	\$0.8M	\$1M	\$1.2M	\$1.8M	\$2.5M
Other	\$0.2M	\$0.3M	\$0.5M	\$1M	\$1.5M
Total OpEx	\$4.2M	\$6.5M	\$9.5M	\$15M	\$22M

7.4 Profitability Summary (Conservative)

Metric	Year 1	Year 2	Year 3	Year 4	Year 5
Revenue	\$24.25M	\$29.25M	\$33.75M	\$55M	\$88M

Metric	Year 1	Year 2	Year 3	Year 4	Year 5
Operating Expenses	\$4.2M	\$6.5M	\$9.5M	\$15M	\$22M
EBITDA	\$20.05M	\$22.75M	\$24.25M	\$40M	\$66M
EBITDA Margin	83%	78%	72%	73%	75%
Net Profit (Est.)	\$18M	\$20M	\$21M	\$35M	\$58M

3-Year Cumulative Performance: - Total Capital Mobilized: \$1.2 billion - Total Commission Revenue: \$60 million - Total Net Profit: \$59 million

8. Risk Analysis & Mitigation

8.1 Key Risks

Risk Category	Risk	Likelihood	Impact	Mitigation
Political	Instability, conflict	High	High	Diversify geography, donor partnerships
Economic	Oil price volatility	High	Medium	Focus on non-oil sectors
Credit	Project defaults	Medium	High	Rigorous due diligence, guarantees
Operational	Capacity constraints	Medium	Medium	International partnerships, training
Regulatory	Policy changes	Low	Medium	Government engagement, charter protection
Reputational	Project failures	Medium	High	Strong governance, impact monitoring
FX	Currency volatility	High	Medium	USD-denominated operations

8.2 Risk Mitigation Framework

Political Risk Mitigation: - Multilateral co-investment (MIGA, AfDB guarantees) - Political risk insurance - Diversification across regions (East Africa, Pan-African) - Strong government relations with independence

Credit Risk Mitigation: - Comprehensive due diligence - Government guarantees where possible - Collateral and security packages - Phased disbursements tied to milestones

Operational Risk Mitigation: - International advisory partnerships - Robust internal controls - Technology infrastructure - Staff development programs

9. Implementation Roadmap

9.1 Phase 1: Foundation (Months 1-6)

Month	Activities
1-2	Legal establishment, charter negotiation
2-3	Board formation, senior recruitment
3-4	Office setup, systems implementation
4-5	Funder engagement, pipeline development
5-6	First deal structuring, operations launch

Key Milestones: - ✓ Legal entity established - ✓ Board appointed - ✓ CEO and key executives hired - ✓ First 3 projects in pipeline - ✓ First funder MOU signed

9.2 Phase 2: Operations Launch (Months 6-12)

Month	Activities
6-7	First transaction closing
7-8	Paymaster operations begin
8-10	Build deal pipeline
10-12	Achieve Year 1 target

Key Milestones: - ✓ First \$50M+ deal closed - ✓ Paymaster function operational - ✓ 2-3 funders active - ✓ \$400 million capital mobilized - ✓ 3 priority projects funded

9.3 Phase 3: Commercial Wing (Year 2)

Quarter	Activities
Q1	Banking license application
Q2	Commercial banking setup
Q3	Product launch (corporate, trade finance)
Q4	Scale commercial operations

10. Comparable Institutions

10.1 Development Bank of Southern Africa (DBSA)

Metric	DBSA	NDB-SS Target
Total Assets	\$8 billion	\$1.2 billion (3 years)
Annual Disbursements	\$1.5 billion	\$400 million (Year 1)
Staff	500+	45 (Year 3)
Focus	Infrastructure	Infrastructure
Model	Direct lending + Advisory	Commission + Paymaster

Learnings from DBSA: - Strong government backing essential - Infrastructure focus creates impact - Development advisory adds value - Regional expansion viable

10.2 Qatar Development Bank

Metric	QDB	NDB-SS Target
Total Assets	\$3 billion	\$1.2 billion (3 years)
Focus	SME, Diversification	Infrastructure, Diversification
Revenue Model	Interest + Fees	Commission + Fees

10.3 Rwanda Development Bank (BRD)

Metric	BRD	NDB-SS Target
Portfolio	\$400 million	\$400 million (Year 1)
Sectors	Agriculture, Housing, SME	Roads, Mining, Agro-processing

Metric	BRD	NDB-SS Target
Success Factor	Strong governance	Strong governance planned

11. Investment Ask

11.1 Seed Capital Requirements

Category	Amount (USD)	Purpose
Working Capital	\$2,500,000	Operations, salaries (18 months lean)
Technology & Systems	\$800,000	Essential banking systems, IT
Office & Equipment	\$400,000	Juba HQ setup (modest)
Legal & Advisory	\$1,000,000	Structuring, licenses, compliance
Contingency	\$300,000	Unforeseen expenses
Total Seed Capital	\$5,000,000	

11.2 Return Profile (Conservative)

Metric	Value
Seed Investment	\$5 million
Year 1 Net Profit	\$18 million
Year 1 ROI	360%
3-Year Cumulative Profit	\$59 million
3-Year ROI	1,180%
5-Year Cumulative Profit	\$152 million
5-Year ROI	3,040%

11.3 Strategic Partnership Opportunity

We invite strategic partners to participate in the establishment of NDB-SS through:

1. **Equity Investment:** Founding shareholder status
2. **Technical Partnership:** DFI expertise, deal flow
3. **Anchor Commitment:** First major funding commitment
4. **Advisory Role:** Board or committee participation

12. Conclusion

The **National Development Bank of South Sudan** represents a once-in-a-generation opportunity to establish a transformative development finance institution in one of Africa's most underserved markets.

Why NDB-SS Will Succeed:

- ✓ **Massive Market Gap:** No DFI currently serves South Sudan's \$50B+ infrastructure needs
- ✓ **Proven Model:** Commission-based revenue model de-risks operations
- ✓ **Focused Pipeline:** 3 priority projects (\$900M) with clear development impact
- ✓ **Conservative Approach:** \$1.2 billion target over 3 years is achievable and credible
- ✓ **Lean Operations:** Low overhead ensures profitability from Year 1
- ✓ **Development Impact:** Real contribution to nation-building and poverty reduction
- ✓ **Attractive Returns:** Strong ROI potential for founding partners (360% Year 1)

Call to Action

We invite discussions with: - **Development Finance Institutions** seeking deployment opportunities - **Strategic Investors** interested in founding equity positions - **Governments** seeking infrastructure investment channels - **Humanitarian Donors** looking for development-aligned deployment
